EX. ORD. NO. 13153. ACTIONS TO IMPROVE LOW–PERFORMING SCHOOLS

Ex. Ord. No. 13153, May 3, 2000, 65 F.R. 26475, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 6301 et seq.), the Department of Education Appropriations Act, 2000 (as contained in Public Law 106–113) (Pub. L. 106–113, div. B, Sec. 1000(a)(4) (title III), Nov. 29, 1999, 113 Stat. 1535, 1501A–242, see Tables for classification), and in order to take actions to improve low–performing schools, it is hereby ordered as follows:

Section 1. Policy. Since 1993, this Administration has sought to raise standards for students and to increase accountability in public education while investing more resources in elementary and secondary schools. While much has been accomplished – there has been progress in math and reading achievement, particularly for low–achieving students and students in our highest poverty schools – much more can be done, especially for low–performing schools.

Sec. 2. Technical Assistance and Capacity Building. (a) The Secretary of Education ("Secretary") shall work with State and local educational agencies ("LEAs") to develop and implement a comprehensive strategy for providing technical assistance and other assistance to States and LEAs to strengthen their capacity to improve the performance of schools identified as low performing. This comprehensive strategy shall include a number of steps, such as:

(1) providing States, school districts, and schools receiving

funds from the school improvement fund established by Public Law 106–113, as well as other districts and schools identified for school improvement or corrective action under Title I of the ESEA (20 U.S.C. 6301 et seq.), with access to the latest research and information on best practices, including research on instruction and educator professional development, and with the opportunity to learn from exemplary schools and exemplary State and local intervention strategies and from each other, in order to improve achievement for all students in the low–performing schools;

(2) determining effective ways of providing low–performing schools with access to resources from other Department of Education programs, such as funds from the Comprehensive School Reform Demonstration Program, the Reading Excellence Act (Pub. L. 105–277, div. A, Sec. 101(f) (title VIII), Oct. 21, 1998, 112 Stat. 2681–337, 2681–391, see Tables for classification), the Eisenhower Professional Development Program, the Class Size Reduction Program, and the 21st Century Community Learning Centers Program, and to make effective use of these funds and Title I funds;

(3) providing States and LEAs with information on effective strategies to improve the quality of the teaching force, including strategies for recruiting and retaining highly qualified teachers in high–poverty schools, and implementing research–based professional development programs aligned with challenging standards;

(4) helping States and school districts build partnerships with

technical assistance providers, including, but not limited to, federally funded laboratories and centers, foundations, businesses, community-based organizations, institutions of higher education, reform model providers, and other organizations that can help local schools improve;

(5) identifying previously low-performing schools that have made significant achievement gains, and States and school districts that have been effective in improving the achievement of all students in low-performing schools, which can serve as models and resources;

(6) providing assistance and information on how to effectively involve parents in the school-improvement process, including effectively involving and informing parents at the beginning of the school year about improvement goals for their school as well as the goals for their own children, and reporting on progress made in achieving these goals;

(7) providing States and LEAs with information on effective approaches to school accountability, including the effectiveness of such strategies as school reconstitution, peer review teams, and financial rewards and incentives;

(8) providing LEAs with information and assistance on the design and implementation of approaches to choice among public schools that create incentives for improvement throughout the local educational agency, especially in the lowest-performing schools, and that maximize the opportunity of students in low-performing schools to attend a higher-performing public

school;

(9) exploring the use of well-trained tutors to raise student achievement through initiatives such as "America Reads," "America Counts," and other work-study opportunities to help low-performing schools;

(10) using a full range of strategies for disseminating information about effective practices, including interactive electronic communications;

(11) working with the Department of Interior, Bureau of Indian Affairs (BIA), to provide technical assistance to BIA-funded low-performing schools; and

(12) taking other steps that can help improve the quality of teaching and instruction in low-performing schools.

(b) The Secretary shall, to the extent permitted by law, take whatever steps the Secretary finds necessary and appropriate to redirect the resources and technical assistance capability of the Department of Education ("Department") to assist States and localities in improving low-performing schools, and to ensure that the dissemination of research to help turn around low-performing schools is a priority of the Department.

Sec. 3. School Improvement Report. To monitor the progress of LEAs and schools in turning around failing schools, including those receiving grants from the School Improvement Fund, the Secretary shall prepare an annual School Improvement Report, to be published in September of each year, beginning in 2000. The report shall:

(a) describe trends in the numbers of LEAs and schools identified

as needing improvement and subsequent changes in the academic performance of their students;

(b) identify best practices and significant research findings

that can be used to help turn around low-performing LEAs and schools; and

(c) document ongoing efforts as a result of this order and other

Federal efforts to assist States and local school districts in

intervening in low-performing schools, including improving teacher quality. This report shall be publicly accessible.

Sec. 4. Compliance Monitoring System. Consistent with the

implementation of the School Improvement Fund, the Secretary shall

strengthen the Department's monitoring of ESEA requirements for

identifying and turning around low-performing schools, as well as

any new requirements established for the School Improvement Fund by

Public Law 106-113. The Secretary shall give priority to provisions

that have the greatest bearing on identifying and turning around

low-performing schools, including sections 1116 and 1117 of the

ESEA (20 U.S.C. 6316, 6317), and to developing an ongoing, focused,

and systematic process for monitoring these provisions. This

improved compliance monitoring shall be designed to:

(a) ensure that States and LEAs comply with ESEA requirements;

(b) assist States and LEAs in implementing effective procedures

and strategies that reflect the best research available, as well as

the experience of successful schools, school districts, and States

as they address similar objectives and challenges; and

(c) assist States, LEAs, and schools in making the most effective

use of available Federal resources.

Sec. 5. Consultation. The Secretary shall, where appropriate, consult with executive agencies, State and local education officials, educators, community-based groups, and others in carrying out this Executive order.

Sec. 6. Judicial Review. This order is intended only to improve the internal management of the executive branch and is not intended to, and does not create any right or benefit, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies or instrumentalities, its officers or employees, or any other person. Sec. 6303. School improvement

–STATUTE–

(a) State reservations

Each State shall reserve 2 percent of the amount the State receives under subpart 2 of part A of this subchapter for fiscal years 2002 and 2003, and 4 percent of the amount received under such subpart for fiscal years 2004 through 2007, to carry out subsection (b) of this section and to carry out the State's responsibilities under sections 6316 and 6317 of this title, including carrying out the State educational agency's statewide system of technical assistance and support for local educational agencies.

(b) Uses

Of the amount reserved under subsection (a) of this section for any fiscal year, the State educational agency –

(1) shall allocate not less than 95 percent of that amount directly to local educational agencies for schools identified for school improvement, corrective action, and restructuring, for

activities under section 6316(b) of this title; or

(2) may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service agencies.

(c) Priority

The State educational agency, in allocating funds to local educational agencies under this section, shall give priority to local educational agencies that –

- (1) serve the lowest-achieving schools;
- (2) demonstrate the greatest need for such funds; and
- (3) demonstrate the strongest commitment to ensuring that such funds are used to enable the lowest-achieving schools to meet the progress goals in school improvement plans under section 6316(b)(3)(A)(v) of this title.

(d) Unused funds

If, after consultation with local educational agencies in the State, the State educational agency determines that the amount of funds reserved to carry out subsection (b) of this section is greater than the amount needed to provide the assistance described in that subsection, the State educational agency shall allocate the excess amount to local educational agencies in accordance with –

- (1) the relative allocations the State educational agency made to those agencies for that fiscal year under subpart 2 of part A of this subchapter; or
- (2) section 6338(c) of this title.

(e) Special rule

Notwithstanding any other provision of this section, the amount of funds reserved by the State educational agency under subsection (a) of this section in any fiscal year shall not decrease the amount of funds each local educational agency receives under subpart 2 (FOOTNOTE 1) below the amount received by such local educational agency under such subpart for the preceding fiscal year.

(FOOTNOTE 1) So in original. Probably should be "subpart 2 of part A of this subchapter".

(f) Reporting

Such grants shall be allotted among States, the Bureau of Indian Affairs, and the outlying areas, in proportion to the funds received by the States, the Bureau of Indian Affairs, and the outlying areas, respectively, for the fiscal year under parts

A, C, and D of this subchapter. The Secretary shall expeditiously allot a portion of such funds to States for the purpose of assisting local educational agencies and schools that were in school improvement status on the date preceding January 8, 2002.

(3) Reallocations

(4) State applications

Each State educational agency that desires to receive funds under this subsection shall submit an application to the Secretary at such time, and containing such information, as the Secretary shall reasonably require, except that such requirement shall be waived if a State educational agency submitted such information as part of its State plan under this part. Each State application shall describe how the State educational agency will allocate such funds in order to assist the State educational agency and local educational agencies in complying with school improvement, corrective action, and restructuring requirements of section 6316 of this title.

(5) Local educational agency grants

A grant to a local educational agency under this subsection shall be –

(A) of sufficient size and scope to support the activities required under sections 6316 and 6317 of this title, but not

less than \$50,000 and not more than \$500,000 for each participating school;

(B) integrated with other funds awarded by the State under this chapter; and

(C) renewable for two additional 1–year periods if schools are meeting the goals in their school improvement plans developed under section 6316 of this title.

(6) Priority

The State, in awarding such grants, shall give priority to local educational agencies with the lowest–achieving schools that demonstrate –

(A) the greatest need for such funds; and

(B) the strongest commitment to ensuring that such funds are used to provide adequate resources to enable the lowest–achieving schools to meet the goals under school and local educational agency improvement, corrective action, and restructuring plans under section 6316 of this title.

(7) Allocation

A State educational agency that receives a grant under this subsection shall allocate at least 95 percent of the grant funds directly to local educational agencies for schools identified for school improvement, corrective action, or restructuring to carry out activities under section 6316(b) of this title, or may, with the approval of the local educational agency, directly provide for these activities or arrange for their provision through other entities such as school support teams or educational service

agencies.

(8) Administrative costs

A State educational agency that receives a grant award under this subsection may reserve not more than 5 percent of such grant funds for administration, evaluation, and technical assistance expenses.

(9) Local awards

Each local educational agency that applies for assistance under this subsection shall describe how it will provide the lowest-achieving schools the resources necessary to meet goals under school and local educational agency improvement, corrective action, and restructuring plans under section 6316 of this title.

Sec. 6311. State plans

–STATUTE–

(a) Plans required

(1) In general

For any State desiring to receive a grant under this part, the State educational agency shall submit to the Secretary a plan, developed by the State educational agency, in consultation with local educational agencies, teachers, principals, pupil services personnel, administrators (including administrators of programs described in other parts of this subchapter), other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this chapter, the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the Carl D. Perkins Vocational and Technical Education Act

of 1998 (20 U.S.C. 2301 et seq.), the Head Start Act (42 U.S.C. 9831 et seq.), the Adult Education and Family Literacy Act (20 U.S.C. 9201 et seq.), and the McKinney–Vento Homeless Assistance Act (42 U.S.C. 11301 et seq.).

(2) Consolidated plan

A State plan submitted under paragraph (1) may be submitted as part of a consolidated plan under section 7842 of this title.

(b) Academic standards, academic assessments, and accountability

(1) Challenging academic standards

(A) In general

Each State plan shall demonstrate that the State has adopted challenging academic content standards and challenging student academic achievement standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

(B) Same standards

The academic standards required by subparagraph (A) shall be the same academic standards that the State applies to all schools and children in the State.

(C) Subjects

The State shall have such academic standards for all public elementary school and secondary school children, including children served under this part, in subjects determined by the State, but including at least mathematics, reading or language arts, and (beginning in the 2005–2006 school year) science,

which shall include the same knowledge, skills, and levels of achievement expected of all children.

(D) Challenging academic standards

Standards under this paragraph shall include –

(i) challenging academic content standards in academic subjects that –

(I) specify what children are expected to know and be able to do;

(II) contain coherent and rigorous content; and

(III) encourage the teaching of advanced skills; and

(ii) challenging student academic achievement standards that –

(I) are aligned with the State's academic content standards;

(II) describe two levels of high achievement (proficient and advanced) that determine how well children are mastering the material in the State academic content standards; and

(III) describe a third level of achievement (basic) to provide complete information about the progress of the lower-achieving children toward mastering the proficient and advanced levels of achievement.

(E) Information

For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed,

such academic standards, the State plan shall describe a strategy for ensuring that students are taught the same knowledge and skills in such subjects and held to the same expectations as are all children.

(F) Existing standards

Nothing in this part shall prohibit a State from revising, consistent with this section, any standard adopted under this part before or after January 8, 2002.

(2) Accountability

(A) In general

Each State plan shall demonstrate that the State has developed and is implementing a single, statewide State accountability system that will be effective in ensuring that all local educational agencies, public elementary schools, and public secondary schools make adequate yearly progress as defined under this paragraph. Each State accountability system shall –

- (i) be based on the academic standards and academic assessments adopted under paragraphs (1) and (3), and other academic indicators consistent with subparagraph (C)(vi) and (vii), and shall take into account the achievement of all public elementary school and secondary school students;
- (ii) be the same accountability system the State uses for all public elementary schools and secondary schools or all local educational agencies in the State, except that public elementary schools, secondary schools, and local educational

agencies not participating under this part are not subject to the requirements of section 6316 of this title; and

(iii) include sanctions and rewards, such as bonuses and recognition, the State will use to hold local educational agencies and public elementary schools and secondary schools accountable for student achievement and for ensuring that they make adequate yearly progress in accordance with the State's definition under subparagraphs (B) and (C).

(B) Adequate yearly progress

Each State plan shall demonstrate, based on academic assessments described in paragraph (3), and in accordance with this paragraph, what constitutes adequate yearly progress of the State, and of all public elementary schools, secondary schools, and local educational agencies in the State, toward enabling all public elementary school and secondary school students to meet the State's student academic achievement standards, while working toward the goal of narrowing the achievement gaps in the State, local educational agencies, and schools.

(C) Definition

"Adequate yearly progress" shall be defined by the State in a manner that –

- (i) applies the same high standards of academic achievement to all public elementary school and secondary school students in the State;
- (ii) is statistically valid and reliable;

(iii) results in continuous and substantial academic improvement for all students;

(iv) measures the progress of public elementary schools, secondary schools and local educational agencies and the State based primarily on the academic assessments described in paragraph (3);

(v) includes separate measurable annual objectives for continuous and substantial improvement for each of the following:

(I) The achievement of all public elementary school and secondary school students.

(II) The achievement of –

(aa) economically disadvantaged students;

(bb) students from major racial and ethnic groups;

(cc) students with disabilities; and

(dd) students with limited English proficiency;

except that disaggregation of data under subclause (II) shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student;

(vi) in accordance with subparagraph (D), includes graduation rates for public secondary school students (defined as the percentage of students who graduate from secondary school with a regular diploma in the standard number of years) and at least one other academic indicator,

as determined by the State for all public elementary school students; and

(vii) in accordance with subparagraph (D), at the State's discretion, may also include other academic indicators, as determined by the State for all public school students, measured separately for each group described in clause (v), such as achievement on additional State or locally administered assessments, decreases in grade-to-grade retention rates, attendance rates, and changes in the percentages of students completing gifted and talented, advanced placement, and college preparatory courses.

(D) Requirements for other indicators

In carrying out subparagraph (C)(vi) and (vii), the State –

(i) shall ensure that the indicators described in those provisions are valid and reliable, and are consistent with relevant, nationally recognized professional and technical standards, if any; and

(ii) except as provided in subparagraph (I)(i), may not use those indicators to reduce the number of, or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if those additional indicators were not used, but may use them to identify additional schools for school improvement or in need of corrective action or restructuring.

(E) Starting point

Each State, using data for the 2001–2002 school year, shall establish the starting point for measuring, under subparagraphs (G) and (H), the percentage of students meeting or exceeding the State's proficient level of academic achievement on the State assessments under paragraph (3) and pursuant to the timeline described in subparagraph (F). The starting point shall be, at a minimum, based on the higher of the percentage of students at the proficient level who are in –

- (i) the State's lowest achieving group of students described in subparagraph (C)(v)(II); or
- (ii) the school at the 20th percentile in the State, based on enrollment, among all schools ranked by the percentage of students at the proficient level.

(F) Timeline

Each State shall establish a timeline for adequate yearly progress. The timeline shall ensure that not later than 12 years after the end of the 2001–2002 school year, all students in each group described in subparagraph (C)(v) will meet or exceed the State's proficient level of academic achievement on the State assessments under paragraph (3).

(G) Measurable objectives

Each State shall establish statewide annual measurable objectives, pursuant to subparagraph (C)(v), for meeting the requirements of this paragraph, and which –

- (i) shall be set separately for the assessments of mathematics and reading or language arts under subsection

(a)(3) of this section;

(ii) shall be the same for all schools and local educational agencies in the State;

(iii) shall identify a single minimum percentage of students who are required to meet or exceed the proficient level on the academic assessments that applies separately to each group of students described in subparagraph (C)(v);

(iv) shall ensure that all students will meet or exceed the State's proficient level of academic achievement on the State assessments within the State's timeline under subparagraph (F); and

(v) may be the same for more than 1 year, subject to the requirements of subparagraph (H).

(H) Intermediate goals for annual yearly progress

Each State shall establish intermediate goals for meeting the requirements, including the measurable objectives in subparagraph (G), of this paragraph and that shall –

(i) increase in equal increments over the period covered by the State's timeline under subparagraph (F);

(ii) provide for the first increase to occur in not more than 2 years; and

(iii) provide for each following increase to occur in not more than 3 years.

(I) Annual improvement for schools

Each year, for a school to make adequate yearly progress under this paragraph –

(i) each group of students described in subparagraph (C)(v) must meet or exceed the objectives set by the State under subparagraph (G), except that if any group described in subparagraph (C)(v) does not meet those objectives in any particular year, the school shall be considered to have made adequate yearly progress if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments under paragraph (3) for that year decreased by 10 percent of that percentage from the preceding school year and that group made progress on one or more of the academic indicators described in subparagraph (C)(vi) or (vii); and

(ii) not less than 95 percent of each group of students described in subparagraph (C)(v) who are enrolled in the school are required to take the assessments, consistent with paragraph (3)(C)(xi) and with accommodations, guidelines, and alternative assessments provided in the same manner as those provided under section 612(a)(17)(A) of the Individuals with Disabilities Education Act (20 U.S.C. 1412(a)(17)(A)) and paragraph (3), on which adequate yearly progress is based (except that the 95 percent requirement described in this clause shall not apply in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student).

(J) Uniform averaging procedure

For the purpose of determining whether schools are making adequate yearly progress, the State may establish a uniform procedure for averaging data which includes one or more of the following:

(i) The State may average data from the school year for which the determination is made with data from one or two school years immediately preceding that school year.

(ii) Until the assessments described in paragraph (3) are administered in such manner and time to allow for the implementation of the uniform procedure for averaging data described in clause (i), the State may use the academic assessments that were required under paragraph (3) as that paragraph was in effect on the day preceding January 8, 2002, provided that nothing in this clause shall be construed to undermine or delay the determination of adequate yearly progress, the requirements of section 6316 of this title, or the implementation of assessments under this section.

(iii) The State may use data across grades in a school.

(K) Accountability for charter schools

The accountability provisions under this chapter shall be overseen for charter schools in accordance with State charter school law.

(3) Academic assessments

(A) In general

Each State plan shall demonstrate that the State educational agency, in consultation with local educational agencies, has

implemented a set of high-quality, yearly student academic assessments that include, at a minimum, academic assessments in mathematics, reading or language arts, and science that will be used as the primary means of determining the yearly performance of the State and of each local educational agency and school in the State in enabling all children to meet the State's challenging student academic achievement standards, except that no State shall be required to meet the requirements of this part relating to science assessments until the beginning of the 2007–2008 school year.

(B) Use of assessments

Each State educational agency may incorporate the data from the assessments under this paragraph into a State-developed longitudinal data system that links student test scores, length of enrollment, and graduation records over time.

(C) Requirements

Such assessments shall –

- (i) be the same academic assessments used to measure the achievement of all children;
- (ii) be aligned with the State's challenging academic content and student academic achievement standards, and provide coherent information about student attainment of such standards;
- (iii) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards;

(iv) be used only if the State educational agency provides to the Secretary evidence from the test publisher or other relevant sources that the assessments used are of adequate technical quality for each purpose required under this chapter and are consistent with the requirements of this section, and such evidence is made public by the Secretary upon request;

(v)(I) except as otherwise provided for grades 3 through 8 under clause vii, measure the proficiency of students in, at a minimum, mathematics and reading or language arts, and be administered not less than once during –

(aa) grades 3 through 5;

(bb) grades 6 through 9; and

(cc) grades 10 through 12;

(II) beginning not later than school year 2007–2008, measure the proficiency of all students in science and be administered not less than one time during –

(aa) grades 3 through 5;

(bb) grades 6 through 9; and

(cc) grades 10 through 12;

(vi) involve multiple up-to-date measures of student academic achievement, including measures that assess higher-order thinking skills and understanding;

(vii) beginning not later than school year 2005–2006, measure the achievement of students against the challenging State academic content and student academic achievement

standards in each of grades 3 through 8 in, at a minimum, mathematics, and reading or language arts, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of the academic assessments by that deadline and that the State will complete implementation within the additional 1-year period;

(viii) at the discretion of the State, measure the proficiency of students in academic subjects not described in clauses (v), (vi), (vii) in which the State has adopted challenging academic content and academic achievement standards;

(ix) provide for –

(I) the participation in such assessments of all students;

(II) the reasonable adaptations and accommodations for students with disabilities (as defined under section 602(3) of the Individuals with Disabilities Education Act (20 U.S.C. 1401(3))) necessary to measure the academic achievement of such students relative to State academic content and State student academic achievement standards;

and

(III) the inclusion of limited English proficient students, who shall be assessed in a valid and reliable

manner and provided reasonable accommodations on assessments administered to such students under this paragraph, including, to the extent practicable, assessments in the language and form most likely to yield accurate data on what such students know and can do in academic content areas, until such students have achieved English language proficiency as determined under paragraph (7);

(x) notwithstanding subclause (III), the academic assessment (using tests written in English) of reading or language arts of any student who has attended school in the United States (not including Puerto Rico) for three or more consecutive school years, except that if the local educational agency determines, on a case-by-case individual basis, that academic assessments in another language or form would likely yield more accurate and reliable information on what such student knows and can do, the local educational agency may make a determination to assess such student in the appropriate language other than English for a period that does not exceed two additional consecutive years, provided that such student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what such student knows and can do on tests (written in English) of reading or language arts;

(xi) include students who have attended schools in a local educational agency for a full academic year but have not

attended a single school for a full academic year, except that the performance of students who have attended more than 1 school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;

(xii) produce individual student interpretive, descriptive, and diagnostic reports, consistent with clause (iii) that allow parents, teachers, and principals to understand and address the specific academic needs of students, and include information regarding achievement on academic assessments aligned with State academic achievement standards, and that are provided to parents, teachers, and principals, as soon as is practicably possible after the assessment is given, in an understandable and uniform format, and to the extent practicable, in a language that parents can understand;

(xiii) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English proficiency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged, except that, in the case of a local educational agency or a school, such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally

identifiable information about an individual student;

(xiv) be consistent with widely accepted professional testing standards, objectively measure academic achievement, knowledge, and skills, and be tests that do not evaluate or assess personal or family beliefs and attitudes, or publicly disclose personally identifiable information; and

(xv) enable itemized score analyses to be produced and reported, consistent with clause (iii), to local educational agencies and schools, so that parents, teachers, principals, and administrators can interpret and address the specific academic needs of students as indicated by the students' achievement on assessment items.

(D) Deferral

A State may defer the commencement, or suspend the administration, but not cease the development, of the assessments described in this paragraph, that were not required prior to January 8, 2002, for 1 year for each year for which the amount appropriated for grants under section 7301b(a)(2) of this title is less than –

(4) Special rule

Academic assessment measures in addition to those in paragraph (3) that do not meet the requirements of such paragraph may be

included in the assessment under paragraph (3) as additional measures, but may not be used in lieu of the academic assessments required under paragraph (3). Such additional assessment measures may not be used to reduce the number of or change, the schools that would otherwise be subject to school improvement, corrective action, or restructuring under section 6316 of this title if such additional indicators were not used, but may be used to identify additional schools for school improvement or in need of corrective action or restructuring except as provided in paragraph (2)(I)(i).

(5) State authority

If a State educational agency provides evidence, which is satisfactory to the Secretary, that neither the State educational agency nor any other State government official, agency, or entity has sufficient authority, under State law, to adopt curriculum content and student academic achievement standards, and academic assessments aligned with such academic standards, which will be applicable to all students enrolled in the State's public elementary schools and secondary schools, then the State educational agency may meet the requirements of this subsection by –

(A) adopting academic standards and academic assessments that meet the requirements of this subsection, on a statewide basis, and limiting their applicability to students served under this part; or

(B) adopting and implementing policies that ensure that each

local educational agency in the State that receives grants under this part will adopt curriculum content and student academic achievement standards, and academic assessments aligned with such standards, which –

(i) meet all of the criteria in this subsection and any regulations regarding such standards and assessments that the Secretary may publish; and

(ii) are applicable to all students served by each such local educational agency.

(6) Language assessments

Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student academic assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible academic assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate academic assessment measures in the needed languages, but shall not mandate a specific academic assessment or mode of instruction.

(7) Academic assessments of English language proficiency

Each State plan shall demonstrate that local educational agencies in the State will, beginning not later than school year 2002–2003, provide for an annual assessment of English proficiency (measuring students' oral language, reading, and

writing skills in English) of all students with limited English proficiency in the schools served by the State educational agency, except that the Secretary may provide the State 1 additional year if the State demonstrates that exceptional or uncontrollable circumstances, such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State, prevented full implementation of this paragraph by that deadline and that the State will complete implementation within the additional 1-year period.

(8) Requirement

Each State plan shall describe –

(A) how the State educational agency will assist each local educational agency and school affected by the State plan to develop the capacity to comply with each of the requirements of sections 6312(c)(1)(D), 6314(b), and 6315(c) of this title that is applicable to such agency or school;

(B) how the State educational agency will assist each local educational agency and school affected by the State plan to provide additional educational assistance to individual students assessed as needing help to achieve the State's challenging academic achievement standards;

(C) the specific steps the State educational agency will take to ensure that both schoolwide programs and targeted assistance schools provide instruction by highly qualified instructional staff as required by sections 6314(b)(1)(C) and 6315(c)(1)(E) of this title, including steps that the State educational

agency will take to ensure that poor and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers, and the measures that the State educational agency will use to evaluate and publicly report the progress of the State educational agency with respect to such steps;

(D) an assurance that the State educational agency will assist local educational agencies in developing or identifying high-quality effective curricula aligned with State academic achievement standards and how the State educational agency will disseminate such curricula to each local educational agency and school within the State; and

(9) Factors affecting student achievement

Each State plan shall include an assurance that the State educational agency will coordinate and collaborate, to the extent feasible and necessary as determined by the State educational agency, with agencies providing services to children, youth, and families, with respect to local educational agencies within the State that are identified under section 6316 of this title and that request assistance with addressing major factors that have significantly affected the academic achievement of students in the local educational agency or schools served by such agency.

(10) Use of academic assessment results to improve student academic achievement

Each State plan shall describe how the State educational agency will ensure that the results of the State assessments described in paragraph (3) –

(2) the State will, beginning in school year 2002–2003,

(E) not decline to approve a State's plan before –

TITLE 20 – EDUCATION

CHAPTER 70 – STRENGTHENING AND IMPROVEMENT OF ELEMENTARY AND SECONDARY SCHOOLS

SUBCHAPTER I – IMPROVING THE ACADEMIC ACHIEVEMENT OF THE DISADVANTAGED

Part A – Improving Basic Programs Operated by Local Educational

Agencies

subpart 1 – basic program requirements

–HEAD–

Sec. 6313. Eligible school attendance areas

–STATUTE–

(a) Determination

(1) In general

A local educational agency shall use funds received under this part only in eligible school attendance areas.

(2) Eligible school attendance areas

For the purposes of this part –

(A) the term "school attendance area" means, in relation to a particular school, the geographical area in which the children who are normally served by that school reside; and

(B) the term "eligible school attendance area" means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families served by the local educational agency as a whole.

(3) Ranking order

If funds allocated in accordance with subsection (c) of this section are insufficient to serve all eligible school attendance areas, a local educational agency shall –

(A) annually rank, without regard to grade spans, such agency's eligible school attendance areas in which the

concentration of children from low-income families exceeds 75 percent from highest to lowest according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order.

(4) Remaining funds

If funds remain after serving all eligible school attendance areas under paragraph (3), a local educational agency shall –

(A) annually rank such agency's remaining eligible school attendance areas from highest to lowest either by grade span or for the entire local educational agency according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order either within each grade-span grouping or within the local educational agency as a whole.

(5) Measures

The local educational agency shall use the same measure of poverty, which measure shall be the number of children ages 5 through 17 in poverty counted in the most recent census data approved by the Secretary, the number of children eligible for free and reduced priced lunches under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.), the number of children in families receiving assistance under the State program funded under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.), or the number of children eligible to receive medical assistance under the Medicaid program, or a

composite of such indicators, with respect to all school attendance areas in the local educational agency –

(A) to identify eligible school attendance areas;

(B) to determine the ranking of each area; and

(C) to determine allocations under subsection (c) of this section.

(6) Exception

This subsection shall not apply to a local educational agency with a total enrollment of less than 1,000 children.

(7) Waiver for desegregation plans

The Secretary may approve a local educational agency's written request for a waiver of the requirements of subsections (a) and (c) of this section, and permit such agency to treat as eligible, and serve, any school that children attend with a State–ordered, court–ordered school desegregation plan or a plan that continues to be implemented in accordance with a State–ordered or court–ordered desegregation plan, if –

(A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the school's total enrollment; and

(B) the Secretary determines on the basis of a written request from such agency and in accordance with such criteria as the Secretary establishes, that approval of that request would further the purposes of this part.

(b) Local educational agency discretion

(1) In general

Notwithstanding subsection (a)(2) of this section, a local educational agency may –

(A) designate as eligible any school attendance area or school in which at least 35 percent of the children are from low-income families;

(B) use funds received under this part in a school that is not in an eligible school attendance area, if the percentage of children from low-income families enrolled in the school is equal to or greater than the percentage of such children in a participating school attendance area of such agency;

(C) designate and serve a school attendance area or school that is not eligible under this section, but that was eligible and that was served in the preceding fiscal year, but only for 1 additional fiscal year; and

(D) elect not to serve an eligible school attendance area or eligible school that has a higher percentage of children from low-income families if –

(i) the school meets the comparability requirements of section 6321(c) of this title;

(ii) the school is receiving supplemental funds from other State or local sources that are spent according to the requirements of section 6314 or 6315 of this title; and

(iii) the funds expended from such other sources equal or exceed the amount that would be provided under this part.

(2) Special rule

Notwithstanding paragraph (1)(D), the number of children

attending private elementary schools and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside is assisted under subparagraph (A).

(c) Allocations

(1) In general

A local educational agency shall allocate funds received under this part to eligible school attendance areas or eligible schools, identified under subsections (a) and (b) of this section, in rank order, on the basis of the total number of children from low-income families in each area or school.

(2) Special rule

(A) In general

Except as provided in subparagraph (B), the per-pupil amount of funds allocated to each school attendance area or school under paragraph (1) shall be at least 125 percent of the per-pupil amount of funds a local educational agency received for that year under the poverty criteria described by the local educational agency in the plan submitted under section 6312 of this title, except that this paragraph shall not apply to a local educational agency that only serves schools in which the percentage of such children is 35 percent or greater.

(B) Exception

A local educational agency may reduce the amount of funds allocated under subparagraph (A) for a school attendance area

or school by the amount of any supplemental State and local funds expended in that school attendance area or school for programs that meet the requirements of section 6314 or 6315 of this title.

(3) Reservation

A local educational agency shall reserve such funds as are necessary under this part to provide services comparable to those provided to children in schools funded under this part to serve –

(A) homeless children who do not attend participating schools, including providing educationally related support services to children in shelters and other locations where children may live;

(B) children in local institutions for neglected children;

and

(C) if appropriate, children in local institutions for delinquent children, and neglected or delinquent children in community day school programs.

(4) Financial incentives and rewards reservation

A local educational agency may reserve such funds as are necessary from those funds received by the local educational agency under subchapter II of this chapter, and not more than 5 percent of those funds received by the local educational agency under subpart 2 of this part, to provide financial incentives and rewards to teachers who serve in schools eligible under this section and identified for school improvement, corrective action, and restructuring under section 6316(b) of this title for the

purpose of attracting and retaining qualified and effective teachers.

subpart 1 – basic program requirements

–HEAD–

Sec. 6314. Schoolwide programs

–STATUTE–

(a) Use of funds for schoolwide programs

(1) In general

A local educational agency may consolidate and use funds under this part, together with other Federal, State, and local funds, in order to upgrade the entire educational program of a school that serves an eligible school attendance area in which not less

than 40 percent of the children are from low-income families, or not less than 40 percent of the children enrolled in the school are from such families.

(2) Identification of students not required

(A) In general

No school participating in a schoolwide program shall be required –

- (i) to identify particular children under this part as eligible to participate in a schoolwide program; or
- (ii) to provide services to such children that are supplementary, as otherwise required by section 6321(b) of this title.

(B) Supplemental funds

A school participating in a schoolwide program shall use funds available to carry out this section only to supplement the amount of funds that would, in the absence of funds under this part, be made available from non-Federal sources for the school, including funds needed to provide services that are required by law for children with disabilities and children with limited English proficiency.

(3) Exemption from statutory and regulatory requirements

(A) Exemption

Except as provided in subsection (b) of this section, the Secretary may, through publication of a notice in the Federal Register, exempt schoolwide programs under this section from statutory or regulatory provisions of any other noncompetitive

formula grant program administered by the Secretary (other than formula or discretionary grant programs under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), except as provided in section 613(a)(2)(D) of such Act (20 U.S.C. 1413(a)(2)(D))), or any discretionary grant program administered by the Secretary, to support schoolwide programs if the intent and purposes of such other programs are met.

(B) Requirements

A school that chooses to use funds from such other programs shall not be relieved of the requirements relating to health, safety, civil rights, student and parental participation and involvement, services to private school children, maintenance of effort, comparability of services, uses of Federal funds to supplement, not supplant non-Federal funds, or the distribution of funds to State educational agencies or local educational agencies that apply to the receipt of funds from such programs.

(C) Records

A school that consolidates and uses funds from different Federal programs under this section shall not be required to maintain separate fiscal accounting records, by program, that identify the specific activities supported by those particular funds as long as the school maintains records that demonstrate that the schoolwide program, considered as a whole, addresses the intent and purposes of each of the Federal programs that were consolidated to support the schoolwide program.

(4) Professional development

Each school receiving funds under this part for any fiscal year shall devote sufficient resources to effectively carry out the activities described in subsection (b)(1)(D) of this section in accordance with section 6319 of this title for such fiscal year, except that a school may enter into a consortium with another school to carry out such activities.

(b) Components of a schoolwide program

(1) In general

A schoolwide program shall include the following components:

(A) A comprehensive needs assessment of the entire school (including taking into account the needs of migratory children as defined in section 6399(2) of this title) that is based on information which includes the achievement of children in relation to the State academic content standards and the State student academic achievement standards described in section 6311(b)(1) of this title.

(B) Schoolwide reform strategies that –

(i) provide opportunities for all children to meet the State's proficient and advanced levels of student academic achievement described in section 6311(b)(1)(D) of this title;

(ii) use effective methods and instructional strategies that are based on scientifically based research that –

(I) strengthen the core academic program in the school;

(II) increase the amount and quality of learning time, such as providing an extended school year and before- and after-school and summer programs and opportunities, and

help provide an enriched and accelerated curriculum; and

(III) include strategies for meeting the educational needs of historically underserved populations;

(iii)(I) include strategies to address the needs of all children in the school, but particularly the needs of low-achieving children and those at risk of not meeting the State student academic achievement standards who are members of the target population of any program that is included in the schoolwide program, which may include –

(aa) counseling, pupil services, and mentoring services;

(bb) college and career awareness and preparation, such as college and career guidance, personal finance education, and innovative teaching methods, which may include applied learning and team-teaching strategies; and

(cc) the integration of vocational and technical education programs; and

(II) address how the school will determine if such needs have been met; and

(iv) are consistent with, and are designed to implement, the State and local improvement plans, if any.

(C) Instruction by highly qualified teachers.

(D) In accordance with section 6319 of this title and subsection (a)(4) of this section, high-quality and ongoing professional development for teachers, principals, and paraprofessionals and, if appropriate, pupil services personnel, parents, and other staff to enable all children in

the school to meet the State's student academic achievement standards.

(E) Strategies to attract high-quality highly qualified teachers to high-need schools.

(F) Strategies to increase parental involvement in accordance with section 6318 of this title, such as family literary services.

(G) Plans for assisting preschool children in the transition from early childhood programs, such as Head Start, Even Start, Early Reading First, or a State-run preschool program, to local elementary school programs.

(H) Measures to include teachers in the decisions regarding the use of academic assessments described in section 6311(b)(3) of this title in order to provide information on, and to improve, the achievement of individual students and the overall instructional program.

(I) Activities to ensure that students who experience difficulty mastering the proficient or advanced levels of academic achievement standards required by section 6311(b)(1) of this title shall be provided with effective, timely additional assistance which shall include measures to ensure that students' difficulties are identified on a timely basis and to provide sufficient information on which to base effective assistance.

(J) Coordination and integration of Federal, State, and local services and programs, including programs supported under this

chapter, violence prevention programs, nutrition programs, housing programs, Head Start, adult education, vocational and technical education, and job training.

(2) Plan

(A) In general

Any eligible school that desires to operate a schoolwide program shall first develop (or amend a plan for such a program that was in existence on the day before January 8, 2002), in consultation with the local educational agency and its school support team or other technical assistance provider under section 6317 of this title, a comprehensive plan for reforming the total instructional program in the school that –

(i) describes how the school will implement the components described in paragraph (1);

(ii) describes how the school will use resources under this part and from other sources to implement those components;

(iii) includes a list of State educational agency and local educational agency programs and other Federal programs under subsection (a)(3) of this section that will be consolidated in the schoolwide program; and

(iv) describes how the school will provide individual student academic assessment results in a language the parents can understand, including an interpretation of those results, to the parents of a child who participates in the academic assessments required by section 6311(b)(3) of this title.

(B) Plan development

The comprehensive plan shall be –

(i) developed during a one–year period, unless –

(I) the local educational agency, after considering the recommendation of the technical assistance providers under section 6317 of this title, determines that less time is needed to develop and implement the schoolwide program; or
(II) the school is operating a schoolwide program on the day preceding January 8, 2002, in which case such school may continue to operate such program, but shall develop amendments to its existing plan during the first year of assistance after that date to reflect the provisions of this section;

(ii) developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, and administrators (including administrators of programs described in other parts of this subchapter), and, if appropriate, pupil services personnel, technical assistance providers, school staff, and, if the plan relates to a secondary school, students from such school;

(iii) in effect for the duration of the school's participation under this part and reviewed and revised, as necessary, by the school;

(iv) available to the local educational agency, parents, and the public, and the information contained in such plan shall be in an understandable and uniform format and, to the

extent practicable, provided in a language that the parents can understand; and

(v) if appropriate, developed in coordination with programs under Reading First, Early Reading First, Even Start, Carl D. Perkins Vocational and Technical Education Act of 1998 (20 U.S.C. 2301 et seq.), and the Head Start Act (42 U.S.C. 9831 et seq.).

Sec. 6315. Targeted assistance schools

–STATUTE–

(a) In general

In all schools selected to receive funds under section 6313(c) of this title that are ineligible for a schoolwide program under section 6314 of this title, or that choose not to operate such a schoolwide program, a local educational agency serving such school may use funds received under this part only for programs that provide services to eligible children under subsection (b) of this section identified as having the greatest need for special assistance.

(b) Eligible children

(1) Eligible population

(A) In general

The eligible population for services under this section is –

(i) children not older than age 21 who are entitled to a

free public education through grade 12; and

(ii) children who are not yet at a grade level at which the

local educational agency provides a free public education.

(B) Eligible children from eligible population

From the population described in subparagraph (A), eligible children are children identified by the school as failing, or most at risk of failing, to meet the State's challenging student academic achievement standards on the basis of multiple, educationally related, objective criteria established by the local educational agency and supplemented by the school, except that children from preschool through grade 2 shall be selected solely on the basis of such criteria as teacher judgment, interviews with parents, and developmentally appropriate measures.

(2) Children included

(A) In general

Children who are economically disadvantaged, children with disabilities, migrant children or limited English proficient children, are eligible for services under this part on the same basis as other children selected to receive services under this part.

(B) Head Start, Even Start, or Early Reading First children

A child who, at any time in the 2 years preceding the year for which the determination is made, participated in a Head Start, Even Start, or Early Reading First program, or in preschool services under this subchapter, is eligible for services under this part.

(C) Part C children

A child who, at any time in the 2 years preceding the year for which the determination is made, received services under

part C of this subchapter is eligible for services under this part.

(D) Neglected or delinquent children

A child in a local institution for neglected or delinquent children and youth or attending a community day program for such children is eligible for services under this part.

(E) Homeless children

A child who is homeless and attending any school served by the local educational agency is eligible for services under this part.

(3) Special rule

Funds received under this part may not be used to provide services that are otherwise required by law to be made available to children described in paragraph (2) but may be used to coordinate or supplement such services.

(c) Components of a targeted assistance school program

(1) In general

To assist targeted assistance schools and local educational agencies to meet their responsibility to provide for all their students served under this part the opportunity to meet the State's challenging student academic achievement standards in subjects as determined by the State, each targeted assistance program under this section shall –

(A) use such program's resources under this part to help participating children meet such State's challenging student academic achievement standards expected for all children;

(B) ensure that planning for students served under this part is incorporated into existing school planning;

(C) use effective methods and instructional strategies that are based on scientifically based research that strengthens the core academic program of the school and that –

- (i) give primary consideration to providing extended learning time, such as an extended school year, before– and after–school, and summer programs and opportunities;
- (ii) help provide an accelerated, high–quality curriculum, including applied learning; and
- (iii) minimize removing children from the regular classroom during regular school hours for instruction provided under this part;

(D) coordinate with and support the regular education program, which may include services to assist preschool children in the transition from early childhood programs such as Head Start, Even Start, Early Reading First or State–run preschool programs to elementary school programs;

(E) provide instruction by highly qualified teachers;

(F) in accordance with subsection (e)(3) of this section and section 6319 of this title, provide opportunities for professional development with resources provided under this part, and, to the extent practicable, from other sources, for teachers, principals, and paraprofessionals, including, if appropriate, pupil services personnel, parents, and other staff, who work with participating children in programs under

this section or in the regular education program;

(G) provide strategies to increase parental involvement in accordance with section 6318 of this title, such as family literacy services; and

(H) coordinate and integrate Federal, State, and local services and programs, including programs supported under this chapter, violence prevention programs, nutrition programs, housing programs, Head Start, adult education, vocational and technical education, and job training.

(2) Requirements

Each school conducting a program under this section shall assist participating children selected in accordance with subsection (b) of this section to meet the State's proficient and advanced levels of achievement by –

(A) the coordinating of resources provided under this part with other resources; and

(B) reviewing, on an ongoing basis, the progress of participating children and revising the targeted assistance program, if necessary, to provide additional assistance to enable such children to meet the State's challenging student academic achievement standards, such as an extended school year, before- and after-school, and summer programs and opportunities, training for teachers regarding how to identify students who need additional assistance, and training for teachers regarding how to implement student academic achievement standards in the classroom.

(d) Integration of professional development

To promote the integration of staff supported with funds under this part into the regular school program and overall school planning and improvement efforts, public school personnel who are paid with funds received under this part may –

(1) participate in general professional development and school planning activities; and

(2) assume limited duties that are assigned to similar personnel who are not so paid, including duties beyond classroom instruction or that do not benefit participating children, so long as the amount of time spent on such duties is the same proportion of total work time as prevails with respect to similar personnel at the same school.

(e) Special rules

(1) Simultaneous service

Nothing in this section shall be construed to prohibit a school from serving students under this section simultaneously with students with similar educational needs, in the same educational settings where appropriate.

(2) Comprehensive services

If –

(A) health, nutrition, and other social services are not otherwise available to eligible children in a targeted assistance school and such school, if appropriate, has engaged in a comprehensive needs assessment and established a collaborative partnership with local service providers; and

(B) funds are not reasonably available from other public or private sources to provide such services, then a portion of the funds provided under this part may be used as a last resort to provide such services, including –

(i) the provision of basic medical equipment, such as eyeglasses and hearing aids;

(ii) compensation of a coordinator; and

(iii) professional development necessary to assist teachers, pupil services personnel, other staff, and parents in identifying and meeting the comprehensive needs of eligible children.

(3) Professional development

Each school receiving funds under this part for any fiscal year shall devote sufficient resources to carry out effectively the professional development activities described in subparagraph (F) of subsection (c)(1) of this section in accordance with section 6319 of this title for such fiscal year, and a school may enter into a consortium with another school to carry out such activities.

–HEAD–

Sec. 6316. Academic assessment and local educational agency and school improvement

–STATUTE–

(a) Local review

(1) In general

Each local educational agency receiving funds under this part shall –

(A) use the State academic assessments and other indicators

described in the State plan to review annually the progress of each school served under this part to determine whether the school is making adequate yearly progress as defined in section 6311(b)(2) of this title;

(B) at the local educational agency's discretion, use any academic assessments or any other academic indicators described in the local educational agency's plan under section 6312(b)(1)(A) and (B) of this title to review annually the progress of each school served under this part to determine whether the school is making adequate yearly progress as defined in section 6311(b)(2) of this title, except that the local educational agency may not use such indicators (other than as provided for in section 6311(b)(2)(I) of this title) if the indicators reduce the number or change the schools that would otherwise be subject to school improvement, corrective action, or restructuring under this section if such additional indicators were not used, but may identify additional schools for school improvement or in need of corrective action or restructuring;

(C) publicize and disseminate the results of the local annual review described in paragraph (1) to parents, teachers, principals, schools, and the community so that the teachers, principals, other staff, and schools can continually refine, in an instructionally useful manner, the program of instruction to help all children served under this part meet the challenging State student academic achievement standards established under

section 6311(b)(1) of this title; and

(D) review the effectiveness of the actions and activities the schools are carrying out under this part with respect to parental involvement, professional development, and other activities assisted under this part.

(2) Available results

The State educational agency shall ensure that the results of State academic assessments administered in that school year are available to the local educational agency before the beginning of the next school year.

(b) School improvement

(1) General requirements

(A) Identification

Subject to subparagraph (C), a local educational agency shall identify for school improvement any elementary school or secondary school served under this part that fails, for 2 consecutive years, to make adequate yearly progress as defined in the State's plan under section 6311(b)(2) of this title.

(B) Deadline

The identification described in subparagraph (A) shall take place before the beginning of the school year following such failure to make adequate yearly progress.

(C) Application

Subparagraph (A) shall not apply to a school if almost every student in each group specified in section 6311(b)(2)(C)(v) of this title enrolled in such school is meeting or exceeding the

State's proficient level of academic achievement.

(D) Targeted assistance schools

To determine if an elementary school or a secondary school that is conducting a targeted assistance program under section 6315 of this title should be identified for school improvement, corrective action, or restructuring under this section, a local educational agency may choose to review the progress of only the students in the school who are served, or are eligible for services, under this part.

(E) Public school choice

(i) In general

In the case of a school identified for school improvement under this paragraph, the local educational agency shall, not later than the first day of the school year following such identification, provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency, which may include a public charter school, that has not been identified for school improvement under this paragraph, unless such an option is prohibited by State law.

(ii) Rule

In providing students the option to transfer to another public school, the local educational agency shall give priority to the lowest achieving children from low-income families, as determined by the local educational agency for purposes of allocating funds to schools under section

6313(c)(1) of this title.

(F) Transfer

Students who use the option to transfer under subparagraph (E) and paragraph (5)(A), (7)(C)(i), or (8)(A)(i) or subsection (c)(10)(C)(vii) of this section shall be enrolled in classes and other activities in the public school to which the students transfer in the same manner as all other children at the public school.

(2) Opportunity to review and present evidence; time limit

(A) Identification

Before identifying an elementary school or a secondary school for school improvement under paragraphs (FOOTNOTE 1) (1) or (5)(A), for corrective action under paragraph (7), or for restructuring under paragraph (8), the local educational agency shall provide the school with an opportunity to review the school-level data, including academic assessment data, on which the proposed identification is based.

(FOOTNOTE 1) So in original. Probably should be "paragraph".

(B) Evidence

If the principal of a school proposed for identification under paragraph (1), (5)(A), (7), or (8) believes, or a majority of the parents of the students enrolled in such school believe, that the proposed identification is in error for statistical or other substantive reasons, the principal may provide supporting evidence to the local educational agency, which shall consider that evidence before making a final

determination.

(C) Final determination

Not later than 30 days after a local educational agency provides the school with the opportunity to review such school-level data, the local educational agency shall make public a final determination on the status of the school with respect to the identification.

(3) School plan

(A) Revised plan

After the resolution of a review under paragraph (2), each school identified under paragraph (1) for school improvement shall, not later than 3 months after being so identified, develop or revise a school plan, in consultation with parents, school staff, the local educational agency serving the school, and outside experts, for approval by such local educational agency. The school plan shall cover a 2-year period and –

(i) incorporate strategies based on scientifically based research that will strengthen the core academic subjects in the school and address the specific academic issues that caused the school to be identified for school improvement, and may include a strategy for the implementation of a comprehensive school reform model that includes each of the components described in part F of this subchapter;

(ii) adopt policies and practices concerning the school's core academic subjects that have the greatest likelihood of ensuring that all groups of students specified in section

6311(b)(2)(C)(v) of this title and enrolled in the school will meet the State's proficient level of achievement on the State academic assessment described in section 6311(b)(3) of this title not later than 12 years after the end of the 2001–2002 school year;

(iii) provide an assurance that the school will spend not less than 10 percent of the funds made available to the school under section 6313 of this title for each fiscal year that the school is in school improvement status, for the purpose of providing to the school's teachers and principal high–quality professional development that –

(I) directly addresses the academic achievement problem that caused the school to be identified for school improvement;

(II) meets the requirements for professional development activities under section 6319 of this title; and

(III) is provided in a manner that affords increased opportunity for participating in that professional development;

(iv) specify how the funds described in clause (iii) will be used to remove the school from school improvement status;

(v) establish specific annual, measurable objectives for continuous and substantial progress by each group of students specified in section 6311(b)(2)(C)(v) of this title and enrolled in the school that will ensure that all such groups of students will, in accordance with adequate yearly progress

as defined in section 6311(b)(2) of this title, meet the State's proficient level of achievement on the State academic assessment described in section 6311(b)(3) of this title not later than 12 years after the end of the 2001–2002 school year;

(vi) describe how the school will provide written notice about the identification to parents of each student enrolled in such school, in a format and, to the extent practicable, in a language that the parents can understand;

(vii) specify the responsibilities of the school, the local educational agency, and the State educational agency serving the school under the plan, including the technical assistance to be provided by the local educational agency under paragraph (4) and the local educational agency's responsibilities under section 6321 of this title;

(viii) include strategies to promote effective parental involvement in the school;

(ix) incorporate, as appropriate, activities before school, after school, during the summer, and during any extension of the school year; and

(x) incorporate a teacher mentoring program.

(B) Conditional approval

The local educational agency may condition approval of a school plan under this paragraph on –

(i) inclusion of one or more of the corrective actions specified in paragraph (7)(C)(iv); or

(ii) feedback on the school improvement plan from parents and community leaders.

(C) Plan implementation

Except as provided in subparagraph (D), a school shall implement the school plan (including a revised plan) expeditiously, but not later than the beginning of the next full school year following the identification under paragraph (1).

(D) Plan approved during school year

Notwithstanding subparagraph (C), if a plan is not approved prior to the beginning of a school year, such plan shall be implemented immediately upon approval.

(E) Local educational agency approval

The local educational agency, within 45 days of receiving a school plan, shall –

- (i) establish a peer review process to assist with review of the school plan; and
- (ii) promptly review the school plan, work with the school as necessary, and approve the school plan if the plan meets the requirements of this paragraph.

(4) Technical assistance

(A) In general

For each school identified for school improvement under paragraph (1), the local educational agency serving the school shall ensure the provision of technical assistance as the school develops and implements the school plan under paragraph

(3) throughout the plan's duration.

(B) Specific assistance

Such technical assistance –

(i) shall include assistance in analyzing data from the assessments required under section 6311(b)(3) of this title, and other examples of student work, to identify and address problems in instruction, and problems if any, in implementing the parental involvement requirements described in section 6318 of this title, the professional development requirements described in section 6319 of this title, and the responsibilities of the school and local educational agency under the school plan, and to identify and address solutions to such problems;

(ii) shall include assistance in identifying and implementing professional development, instructional strategies, and methods of instruction that are based on scientifically based research and that have proven effective in addressing the specific instructional issues that caused the school to be identified for school improvement;

(iii) shall include assistance in analyzing and revising the school's budget so that the school's resources are more effectively allocated to the activities most likely to increase student academic achievement and to remove the school from school improvement status; and

(iv) may be provided –

(I) by the local educational agency, through mechanisms

authorized under section 6317 of this title; or

(II) by the State educational agency, an institution of higher education (that is in full compliance with all the reporting provisions of title II of the Higher Education Act of 1965 (20 U.S.C. 1021 et seq.)), a private not-for-profit organization or for-profit organization, an educational service agency, or another entity with experience in helping schools improve academic achievement.

(C) Scientifically based research

Technical assistance provided under this section by a local educational agency or an entity approved by that agency shall be based on scientifically based research.

(5) Failure to make adequate yearly progress after identification

In the case of any school served under this part that fails to make adequate yearly progress, as set out in the State's plan under section 6311(b)(2) of this title, by the end of the first full school year after identification under paragraph (1), the local educational agency serving such school –

(A) shall continue to provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency in accordance with subparagraphs (E) and (F);

(13) Special rule

A local educational agency shall permit a child who transferred to another school under this subsection to remain in that school until the child has completed the highest grade in that school.

The obligation of the local educational agency to provide, or to provide for, transportation for the child ends at the end of a school year if the local educational agency determines that the school from which the child transferred is no longer identified for school improvement or subject to corrective action or restructuring.

(A) first, provide support and assistance to local educational agencies with schools subject to corrective action under section 6316 of this title and assist those schools, in accordance with section 6316(b)(11) of this title, for which a local educational agency has failed to carry out its

responsibilities under paragraphs (7) and (8) of section 6316(b) of this title;

(B) second, provide support and assistance to other local educational agencies with schools identified as in need of improvement under section 6316(b) of this title; and

(C) third, provide support and assistance to other local educational agencies and schools participating under this part that need that support and assistance in order to achieve the purpose of this part.

(3) Regional centers

(4) Statewide system

(A) In order to achieve the purpose described in paragraph (1), the statewide system shall include, at a minimum, the following approaches:

(i) Establishing school support teams in accordance with subparagraph (C) for assignment to, and working in, schools in

(B) Priority. – The State educational agency shall give priority to the approach described in clause (i) of subparagraph (A).

(5) School support teams

- (iii) evaluate, at least semiannually, the effectiveness of school personnel assigned to the school, including

identifying outstanding teachers and principals, and make findings and recommendations to the school, the local educational agency, and, where appropriate, the State educational agency; and

(C) Continuation of assistance

After one school year, from the beginning of the activities, such school support team, in consultation with the local educational agency, may recommend that the school support team continue to provide assistance to the school, or that the local educational agency or the State educational agency, as appropriate, take alternative actions with regard to the school.

Such programs, activities, and procedures shall be planned and implemented with meaningful consultation with parents of participating children.

(2) Written policy

Each local educational agency that receives funds under this part shall develop jointly with, agree on with, and distribute to, parents of participating children a written parent involvement policy. The policy shall be incorporated into the local educational agency's plan developed under section 6312 of this title, establish the agency's expectations for parent involvement, and describe how the agency will –

(A) involve parents in the joint development of the plan under section 6312 of this title, and the process of school review and improvement under section 6316 of this title;

(B) provide the coordination, technical assistance, and other support necessary to assist participating schools in planning and implementing effective parent involvement activities to improve student academic achievement and school performance;

other programs, such as the Head Start program, Reading First program, Early Reading First program, Even Start program, Parents as Teachers program, and Home Instruction Program for Preschool Youngsters, and State-run preschool programs;

(E) conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of the schools served under this part, including identifying barriers to greater participation by parents in activities authorized by this section (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background), and use the findings of such evaluation to design strategies for more effective parental involvement, and to revise, if necessary, the parental involvement policies described in this section; and

(F) involve parents in the activities of the schools served under this part.

(3) Reservation

(A) In general

Each local educational agency shall reserve not less than 1 percent of such agency's allocation under subpart 2 of this part to carry out this section, including promoting family literacy and parenting skills, except that this paragraph shall not apply if 1 percent of such agency's allocation under subpart 2 of this part for the fiscal year for which the

determination is made is \$5,000 or less.

(B) Parental input

Parents of children receiving services under this part shall be involved in the decisions regarding how funds reserved under subparagraph (A) are allotted for parental involvement activities.

(C) Distribution of funds

Not less than 95 percent of the funds reserved under subparagraph (A) shall be distributed to schools served under this part.

(b) School parental involvement policy

(1) In general

Each school served under this part shall jointly develop with, and distribute to, parents of participating children a written parental involvement policy, agreed on by such parents, that shall describe the means for carrying out the requirements of subsections (c) through (f) of this section. Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents can understand. Such policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

(2) Special rule

If the school has a parental involvement policy that applies to all parents, such school may amend that policy, if necessary, to meet the requirements of this subsection.

(3) Amendment

If the local educational agency involved has a school district–level parental involvement policy that applies to all parents, such agency may amend that policy, if necessary, to meet the requirements of this subsection.

(4) Parental comments

If the plan under section 6312 of this title is not satisfactory to the parents of participating children, the local educational agency shall submit any parent comments with such plan when such local educational agency submits the plan to the State.

(c) Policy involvement

Each school served under this part shall –

- (1) convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation under this part and to explain the requirements of this part, and the right of the parents to be involved;
- (2) offer a flexible number of meetings, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement;
- (3) involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs under this part, including the planning, review, and improvement of the school parental involvement policy and the joint development of

the schoolwide program plan under section 6314(b)(2) of this title, except that if a school has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children;

(d) Shared responsibilities for high student academic achievement

As a component of the school–level parental involvement policy developed under subsection (b) of this section, each school served under this part shall jointly develop with parents for all children served under this part a school–parent compact that outlines how

parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards.

Such compact shall –

(1) describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the children served under this part to meet the State's student academic achievement standards, and the ways in which each parent will be responsible for supporting their children's learning, such as monitoring attendance, homework completion, and television watching; volunteering in their child's classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time; and

(2) address the importance of communication between teachers and parents on an ongoing basis through, at a minimum –

(A) parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual child's achievement;

(B) frequent reports to parents on their children's progress; and

(C) reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities.

(e) Building capacity for involvement

To ensure effective involvement of parents and to support a partnership among the school involved, parents, and the community to improve student academic achievement, each school and local educational agency assisted under this part –

(1) shall provide assistance to parents of children served by the school or local educational agency, as appropriate, in understanding such topics as the State's academic content standards and State student academic achievement standards, State and local academic assessments, the requirements of this part, and how to monitor a child's progress and work with educators to improve the achievement of their children;

(12) may establish a districtwide parent advisory council to provide advice on all matters related to parental involvement in programs supported under this section;

(13) may develop appropriate roles for community-based organizations and businesses in parent involvement activities; and

(14) shall provide such other reasonable support for parental involvement activities under this section as parents may request.

In carrying out the parental involvement requirements of this part, local educational agencies and schools, to the extent practicable, shall provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under section 6311 of this title in a format and, to the extent practicable, in a language such parents understand.

(g) Information from parental information and resource centers

In a State where a parental information and resource center is established to provide training, information, and support to parents and individuals who work with local parents, local educational agencies, and schools receiving assistance under this part, each local educational agency or school that receives assistance under this part and is located in the State shall assist parents and parental organizations by informing such parents and organizations of the existence and purpose of such centers.

subpart 1 – basic program requirements

–HEAD–

Sec. 6320. Participation of children enrolled in private schools

–STATUTE–

(a) General requirement

(1) In general

To the extent consistent with the number of eligible children identified under section 6315(b) of this title in the school district served by a local educational agency who are enrolled in private elementary schools and secondary schools, a local educational agency shall, after timely and meaningful consultation with appropriate private school officials, provide such children, on an equitable basis, special educational services or other benefits under this part (such as dual enrollment, educational radio and television, computer equipment and materials, other technology, and mobile educational services and equipment) that address their needs, and shall ensure that teachers and families of the children participate, on an equitable basis, in services and activities developed pursuant to

sections 6318 and 6319 of this title.

(2) Secular, neutral, nonideological

Such educational services or other benefits, including materials and equipment, shall be secular, neutral, and nonideological.

(3) Equity

Educational services and other benefits for such private school children shall be equitable in comparison to services and other benefits for public school children participating under this part, and shall be provided in a timely manner.

(4) Expenditures

Expenditures for educational services and other benefits to eligible private school children shall be equal to the proportion of funds allocated to participating school attendance areas based on the number of children from low-income families who attend private schools, which the local educational agency may determine each year or every 2 years.

(5) Provision of services

The local educational agency may provide services under this section directly or through contracts with public and private agencies, organizations, and institutions.

(b) Consultation

(1) In general

To ensure timely and meaningful consultation, a local educational agency shall consult with appropriate private school officials during the design and development of such agency's

programs under this part, on issues such as –

(A) how the children's needs will be identified;

(B) what services will be offered;

(C) how, where, and by whom the services will be provided;

(D) how the services will be academically assessed and how the results of that assessment will be used to improve those services;

(E) the size and scope of the equitable services to be provided to the eligible private school children, and the proportion of funds that is allocated under subsection (a)(4) of this section for such services;

(F) the method or sources of data that are used under subsection (c) of this section and section 6313(c)(1) of this title to determine the number of children from low-income families in participating school attendance areas who attend private schools;

(G) how and when the agency will make decisions about the delivery of services to such children, including a thorough consideration and analysis of the views of the private school officials on the provision of services through a contract with potential third-party providers; and

(H) how, if the agency disagrees with the views of the private school officials on the provision of services through a contract, the local educational agency will provide in writing to such private school officials an analysis of the reasons why the local educational agency has chosen not to use a

contractor.

(2) Timing

Such consultation shall include meetings of agency and private school officials and shall occur before the local educational agency makes any decision that affects the opportunities of eligible private school children to participate in programs under this part. Such meetings shall continue throughout implementation and assessment of services provided under this section.

(3) Discussion

Such consultation shall include a discussion of service delivery mechanisms a local educational agency can use to provide equitable services to eligible private school children.

(4) Documentation

Each local educational agency shall maintain in the agency's records and provide to the State educational agency involved a written affirmation signed by officials of each participating private school that the consultation required by this section has occurred. If such officials do not provide such affirmation within a reasonable period of time, the local educational agency shall forward the documentation that such consultation has taken place to the State educational agency.

(5) Compliance

(A) In general

A private school official shall have the right to complain to the State educational agency that the local educational agency

did not engage in consultation that was meaningful and timely, or did not give due consideration to the views of the private school official.

(B) Procedure

If the private school official wishes to complain, the official shall provide the basis of the noncompliance with this section by the local educational agency to the State educational agency, and the local educational agency shall forward the appropriate documentation to the State educational agency.

(c) Allocation for equitable service to private school students

(1) Calculation

A local educational agency shall have the final authority, consistent with this section, to calculate the number of children, ages 5 through 17, who are from low-income families and attend private schools by –

(A) using the same measure of low income used to count public school children;

(B) using the results of a survey that, to the extent possible, protects the identity of families of private school students, and allowing such survey results to be extrapolated if complete actual data are unavailable;

(C) applying the low-income percentage of each participating public school attendance area, determined pursuant to this section, to the number of private school children who reside in that school attendance area; or

(D) using an equated measure of low income correlated with the measure of low income used to count public school children.

(2) Complaint process

Any dispute regarding low-income data for private school students shall be subject to the complaint process authorized in section 7883 of this title. (FOOTNOTE 1)

(FOOTNOTE 1) See References in Text note below.

(d) Public control of funds

(1) In general

The control of funds provided under this part, and title to materials, equipment, and property purchased with such funds, shall be in a public agency, and a public agency shall administer such funds, materials, equipment, and property.

(2) Provision of services

(A) Provider

The provision of services under this section shall be provided –

- (i) by employees of a public agency; or
- (ii) through contract by such public agency with an individual, association, agency, or organization.

(B) Requirement

In the provision of such services, such employee, individual, association, agency, or organization shall be independent of such private school and of any religious organization, and such employment or contract shall be under the control and supervision of such public agency.

(e) Standards for a bypass

If a local educational agency is prohibited by law from providing for the participation in programs on an equitable basis of eligible children enrolled in private elementary schools and secondary schools, or if the Secretary determines that a local educational agency has substantially failed or is unwilling, to provide for such participation, as required by this section, the Secretary shall –

- (1) waive the requirements of this section for such local educational agency;
- (2) arrange for the provision of services to such children through arrangements that shall be subject to the requirements of this section and sections 7883 and 7884 of this title; and
- (3) in making the determination under this subsection, consider one or more factors, including the quality, size, scope, and location of the program and the opportunity of eligible children to participate.

Sec. 6332. Allocations to States

–STATUTE–

(a) Allocation formula

Of the amount appropriated under section 6302(a) of this title to carry out this part for each of fiscal years 2002–2007 (referred to in this subsection as the current fiscal year) –

(1) an amount equal to the amount made available to carry out section 6333 of this title for fiscal year 2001 shall be allocated in accordance with section 6333 of this title;

(2) an amount equal to the amount made available to carry out section 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6334 of this title; and

(3) an amount equal to 100 percent of the amount, if any, by which the amount made available to carry out sections 6333, 6334, and 6335 of this title for the current fiscal year for which the determination is made exceeds the amount available to carry out sections 6333 and 6334 of this title for fiscal year 2001 shall be allocated in accordance with section 6335 of this title.

(b) Adjustments where necessitated by appropriations

(1) In general

If the sums available under this subpart for any fiscal year are insufficient to pay the full amounts that all local educational agencies in States are eligible to receive under sections 6333, 6334, and 6335 of this title for such year, the Secretary shall ratably reduce the allocations to such local educational agencies, subject to subsections (c) and (d) of this section.

(2) Additional funds

If additional funds become available for making payments under sections 6333, 6334, and 6335 of this title for such fiscal year, allocations that were reduced under paragraph (1) shall be increased on the same basis as they were reduced.

(c) Hold-harmless amounts

(1) Amounts for sections 6333, 6334, and 6335

For each fiscal year, the amount made available to each local

educational agency under each of sections 6333, 6334, and 6335 of

this title shall be –

(A) not less than 95 percent of the amount made available for the preceding fiscal year if the number of children counted for grants under section 6333 of this title is not less than 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency;

(B) not less than 90 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is between 15 percent and 30 percent; and

(C) not less than 85 percent of the amount made available for the preceding fiscal year if the percentage described in subparagraph (A) is below 15 percent.

(2) Payments

If sufficient funds are appropriated, the amounts described in paragraph (1) shall be paid to all local educational agencies that received grants under section 6334 of this title for the preceding fiscal year, regardless of whether the local educational agency meets the minimum eligibility criteria for that fiscal year described in section 6334(a)(1)(A) of this title except that a local educational agency that does not meet such minimum eligibility criteria for 4 consecutive years shall no longer be eligible to receive a hold harmless amount referred to in paragraph (1).

(3) Applicability

Notwithstanding any other provision of law, the Secretary shall

not take into consideration the hold-harmless provisions of this subsection for any fiscal year for purposes of calculating State or local allocations for the fiscal year under any program administered by the Secretary other than a program authorized under this part.

(4) Population data

For any fiscal year for which the Secretary calculates grants on the basis of population data for counties, the Secretary shall apply the hold-harmless percentages in paragraphs (1) and (2) to counties and, if the Secretary's allocation for a county is not sufficient to meet the hold-harmless requirements of this subsection for every local educational agency within that county, the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds in excess of the hold-harmless amounts specified in this subsection.

(d) Ratable reductions

(1) In general

If the sums made available under this subpart for any fiscal year are insufficient to pay the full amounts that local educational agencies in all States are eligible to receive under subsection (c) of this section for such year, the Secretary shall ratably reduce such amounts for such year.

(2) Additional funds

If additional funds become available for making payments under subsection (c) of this section for such fiscal year, amounts that

were reduced under paragraph (1) shall be increased on the same basis as such amounts were reduced.

(e) Definition

Part A – Improving Basic Programs Operated by Local Educational

subpart 2 – allocations

–HEAD–

Sec. 6333. Basic grants to local educational agencies

–STATUTE–

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

Except as provided in paragraph (4) and in section 6338 of this
title, the grant that a local educational agency is eligible to
receive under this section for a fiscal year is the amount
determined by multiplying –

(A) the number of children counted under subsection (c) of
this section; and

(B) 40 percent of the average per-pupil expenditure in the
State, except that the amount determined under this
subparagraph shall not be less than 32 percent, or more than 48
percent, of the average per-pupil expenditure in the United
States.

(2) Calculation of grants

(A) Allocations to local educational agencies

The Secretary shall calculate grants under this section on
the basis of the number of children counted under subsection
(c) of this section for local educational agencies, unless the

Secretary and the Secretary of Commerce determine that some or all of those data are unreliable or that their use would be otherwise inappropriate, in which case –

(i) the two Secretaries shall publicly disclose the reasons for their determination in detail; and

(ii) paragraph (3) shall apply.

(B) Allocations to large and small local educational agencies

(i) For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section for each local educational agency.

(ii) The amount of a grant under this section for each large local educational agency shall be the amount determined under clause (i).

(iii) For small local educational agencies, the State educational agency may either –

(I) distribute grants under this section in amounts determined by the Secretary under clause (i); or

(II) use an alternative method approved by the Secretary to distribute the portion of the State's total grants under this section that is based on those small agencies.

(iv) An alternative method under clause (iii)(II) shall be based on population data that the State educational agency determines best reflect the current distribution of children in poor families among the State's small local educational agencies that meet the eligibility criteria of subsection (b) of this section.

(v) If a small local educational agency is dissatisfied with the determination of its grant by the State educational agency under clause (iii)(II), it may appeal that determination to the Secretary, who shall respond not later than 45 days after receipt of such appeal.

(vi) As used in this subparagraph –

(I) the term "large local educational agency" means a local educational agency serving an area with a total population of 20,000 or more; and

(II) the term "small local educational agency" means a local educational agency serving an area with a total population of less than 20,000.

(3) Allocations to counties

(A) Calculation

For any fiscal year to which this paragraph applies, the Secretary shall calculate grants under this section on the basis of the number of children counted under subsection (c) of this section for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations issued by the Secretary.

(B) Direct allocations

In any State in which a large number of local educational agencies overlap county boundaries, or for which the State believes it has data that would better target funds than allocating them by county, the State educational agency may apply to the Secretary for authority to make the allocations

under this subpart for a particular fiscal year directly to local educational agencies without regard to counties.

(C) Allocations to local educational agencies

If the Secretary approves the State educational agency's application under subparagraph (B), the State educational agency shall provide the Secretary an assurance that such allocations shall be made –

- (i) using precisely the same factors for determining a grant as are used under this subpart; or
- (ii) using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

(D) Appeal

The State educational agency shall provide the Secretary an assurance that it will establish a procedure through which a local educational agency that is dissatisfied with its determinations under subparagraph (B) may appeal directly to the Secretary for a final determination.

(4) Puerto Rico

(A) In general

For each fiscal year, the grant that the Commonwealth of Puerto Rico shall be eligible to receive under this section shall be the amount determined by multiplying the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico by the product of –

- (i) subject to subparagraph (B), the percentage that the

average per-pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per-pupil expenditure of any of the 50 States; and

(ii) 32 percent of the average per-pupil expenditure in the United States.

(B) Minimum percentage

The percentage in subparagraph (A)(i) shall not be less than

–

(i) for fiscal year 2002, 77.5 percent;

(ii) for fiscal year 2003, 80.0 percent;

(iii) for fiscal year 2004, 82.5 percent;

(iv) for fiscal year 2005, 85.0 percent;

(v) for fiscal year 2006, 92.5 percent; and

(vi) for fiscal year 2007 and succeeding fiscal years, 100.0 percent.

(C) Limitation

If the application of subparagraph (B) would result in any of the 50 States or the District of Columbia receiving less under this subpart than it received under this subpart for the preceding fiscal year, the percentage in subparagraph (A) shall be the greater of –

(i) the percentage in subparagraph (A)(i);

(ii) the percentage specified in subparagraph (B) for the preceding fiscal year; or

(iii) the percentage used for the preceding fiscal year.

(b) Minimum number of children to qualify

A local educational agency is eligible for a basic grant under this section for any fiscal year only if the number of children counted under subsection (c) of this section for that agency is both –

- (1) 10 or more; and
- (2) more than 2 percent of the total school–age population in the agency's jurisdiction.

(c) Children to be counted

(1) Categories of children

The number of children to be counted for purposes of this section is the aggregate of –

- (A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);
- (B) the number of children (determined under paragraph (4) for either the preceding year as described in that paragraph, or for the second preceding year, as the Secretary finds appropriate) aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D of this subchapter for the purposes of a grant to a State agency, or being supported in foster homes with public funds; and
- (C) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (4).

(2) Determination of number of children

For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. The District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) Population updates

(A) In general

In fiscal year 2002 and each subsequent fiscal year, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that the use of the updated population data would be inappropriate or unreliable. If appropriate and

reliable data are not available annually, the Secretary shall use data which are updated every 2 years.

(B) Inappropriate or unreliable data

If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in subparagraph (A) are inappropriate or unreliable, the Secretary and the Secretary of Commerce shall publicly disclose their reasons.

(C) Criteria of poverty

In determining the families that are below the poverty level, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, as the criteria have been updated by increases in the Consumer Price Index for All Urban Consumers, published by the Bureau of Labor Statistics.

(4) Other children to be counted

(A) For the purpose of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual income, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.); and in making such determinations, the Secretary shall use the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of four in such form as those criteria have been updated by increases in the Consumer Price Index for All

Urban Consumers, published by the Bureau of Labor Statistics.

(B) The Secretary shall determine the number of such children and the number of children aged 5 through 17 living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination.

(C) Except for the data on children living in institutions for neglected or delinquent children, the Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(D) For the purpose of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(5) Estimate

When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as

determined under paragraph (1)(A)) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information.

(d) State minimum

Notwithstanding section 6332 of this title, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of –

(1) 0.25 percent of the total amount allocated to States under this section for fiscal year 2001, plus 0.35 percent of the total amount allocated to States under this section in excess of the amount allocated for fiscal year 2001; or

(2) the average of –

(A) the amount calculated in paragraph (1), above; and

(B) the number of children in such State counted under subsection (c) of this section in the fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

(ii) the average of –

(I) the amount calculated under clause (i); and

(II) the greater of –

(aa) \$340,000; or

(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per-pupil payment made with funds available under this section for that year.

(2) Determination

For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year, the Secretary shall determine the product of –

(A) the number of children counted under section 6333(c) of this title for that fiscal year; and

(B) the amount in section 6333(a)(1)(B) of this title for each State except the Commonwealth of Puerto Rico, and the amount in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(4) Local allocations

(A) Grant amounts under this section shall be determined in

accordance with section 6333(a)(2), (3), and (4) of this title.

Sec. 6335. Targeted grants to local educational agencies

–STATUTE–

(a) Eligibility of local educational agencies

(1) In general

A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if –

(A) the number of children in the local educational agency counted under section 6333(c) of this title, before application of the weighted child count described in subsection (c) of this section, is at least 10; and

(B) if the number of children counted for grants under section 6333(c) of this title, before application of the weighted child count described in subsection (c) of this section, is at least 5 percent of the total number of children aged 5 to 17 years, inclusive, in the school district of the local educational agency.

(2) Special rule

For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(b) Grants for local educational agencies, the District of Columbia, and the Commonwealth of Puerto Rico

(1) In general

The amount of the grant that a local educational agency in a State (other than the Commonwealth of Puerto Rico) is eligible to receive under this section for any fiscal year shall be the product of –

(A) the weighted child count determined under subsection (c)

of this section; and

(B) the amount determined under section 6333(a)(1)(B) of this title.

(2) Puerto Rico

For each fiscal year, the amount of the grant the Commonwealth of Puerto Rico is eligible to receive under this section shall be equal to the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico, multiplied by the amount determined in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico.

(c) Weighted child count

(1) Weights for allocations to counties

(A) In general

For each fiscal year for which the Secretary uses county population data to calculate grants, the weighted child count used to determine a county's allocation under this section is the larger of the two amounts determined under subparagraphs (B) and (C).

(B) By percentage of children

The amount referred to in subparagraph (A) is determined by adding –

(i) the number of children determined under section 6333(c) of this title for that county who constitute not more than 15.00 percent, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(ii) the number of such children who constitute more than 15.00 percent, but not more than 19.00 percent, of such population, multiplied by 1.75;

(iii) the number of such children who constitute more than 19.00 percent, but not more than 24.20 percent, of such population, multiplied by 2.5;

(iv) the number of such children who constitute more than 24.20 percent, but not more than 29.20 percent, of such population, multiplied by 3.25; and

(v) the number of such children who constitute more than 29.20 percent of such population, multiplied by 4.0.

(C) By number of children

The amount referred to in subparagraph (A) is determined by adding –

(i) the number of children determined under section 6333(c) of this title who constitute not more than 2,311, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(ii) the number of such children between 2,312 and 7,913, inclusive, in such population, multiplied by 1.5;

(iii) the number of such children between 7,914 and 23,917, inclusive, in such population, multiplied by 2.0;

(iv) the number of such children between 23,918 and 93,810, inclusive, in such population, multiplied by 2.5; and

(v) the number of such children in excess of 93,811 in such population, multiplied by 3.0.

(D) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for the Commonwealth of Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.82.

(2) Weights for allocations to local educational agencies

(A) In general

For each fiscal year for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency's grant under this section is the larger of the two amounts determined under subparagraphs (B) and (C).

(B) By percentage of children

The amount referred to in subparagraph (A) is determined by adding –

- (i) the number of children determined under section 6333(c) of this title for that local educational agency who constitute not more than 15.58 percent, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;
- (ii) the number of such children who constitute more than 15.58 percent, but not more than 22.11 percent, of such population, multiplied by 1.75;
- (iii) the number of such children who constitute more than 22.11 percent, but not more than 30.16 percent, of such population, multiplied by 2.5;

(iv) the number of such children who constitute more than 30.16 percent, but not more than 38.24 percent, of such population, multiplied by 3.25; and

(v) the number of such children who constitute more than 38.24 percent of such population, multiplied by 4.0.

(C) By number of children

The amount referred to in subparagraph (A) is determined by adding –

(i) the number of children determined under section 6333(c) of this title who constitute not more than 691, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(ii) the number of such children between 692 and 2,262, inclusive, in such population, multiplied by 1.5;

(iii) the number of such children between 2,263 and 7,851, inclusive, in such population, multiplied by 2.0;

(iv) the number of such children between 7,852 and 35,514, inclusive, in such population, multiplied by 2.5; and

(v) the number of such children in excess of 35,514 in such population, multiplied by 3.0.

(D) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for the Commonwealth of Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.82.

(d) Calculation of grant amounts

Grant amounts under this section shall be calculated in the same manner as grant amounts are calculated under section 6333(a)(2) and (3) of this title.

(e) State minimum

Notwithstanding any other provision of this section or section 6332 of this title, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of –

(1) 0.35 percent of the total amount available to carry out this section; or

(2) the average of –

(A) 0.35 percent of the total amount available to carry out this section; and

Sec. 6336. Adequacy of funding of targeted grants to local educational agencies in fiscal years after fiscal year 2001

~~–STATUTE–~~

(a) Findings

Congress makes the following findings:

(1) The current Basic Grant Formula for the distribution of funds under this part often does not provide funds for the economically disadvantaged students for which such funds are targeted.

(2) Any school district in which more than 2 percent of the students live below the poverty level qualifies for funding under the Basic Grant Formula. As a result, 9 out of every 10 school districts in the country receive some form of aid under the Formula.

(3) Fifty–eight percent of all schools receive at least some funding under this part, including many suburban schools with predominantly well–off students.

(4) One out of every 5 schools with concentrations of poor students between 50 and 75 percent receive no funding at all under this part.

(5) In passing the Improving America's Schools Act in 1994, Congress declared that grants under this part would more sharply target high poverty schools by using the Targeted Grant Formula, but annual appropriation Acts have prevented the use of that Formula.

(6) The advantage of the Targeted Grant Formula over other funding formulas under this part is that the Targeted Grant Formula provides increased grants per poor child as the percentage of economically disadvantaged children in a school district increases.

(7) Studies have found that the poverty of a child's family is much more likely to be associated with educational disadvantage if the family lives in an area with large concentrations of poor families.

(8) States with large populations of high poverty students

would receive significantly more funding if more funds under this part were allocated through the Targeted Grant Formula.

(9) Congress has an obligation to allocate funds under this part so that such funds will positively affect the largest number of economically disadvantaged students.

(b) Limitation on allocation of subchapter I funds contingent on adequate funding of targeted grants

Pursuant to section 6332 of this title, the total amount allocated in any fiscal year after fiscal year 2001 for programs and activities under this part shall not exceed the amount allocated in fiscal year 2001 for such programs and activities unless the amount available for targeted grants to local educational agencies under section 6335 of this title in the applicable fiscal year meets the requirements of section 6332(a) of this title.

–STATUTE–

(a) Grants

From funds appropriated under subsection (f) of this section the Secretary is authorized to make grants to States, from allotments under subsection (b) of this section, to carry out the programs and activities of this part.

(b) Distribution based upon fiscal effort and equity

(1) In general

(A) In general

Except as provided in subparagraph (B), funds appropriated pursuant to subsection (f) of this section shall be allotted to each State based upon the number of children counted under section 6333(c) of this title in such State multiplied by the product of –

(i) the amount in section 6333(a)(1)(B) of this title for all States other than the Commonwealth of Puerto Rico, except that the amount determined under that subparagraph shall not be less than 34 percent or more than 46 percent of the average per pupil expenditure in the United States, and the amount in section 6333(a)(4) of this title for the Commonwealth of Puerto Rico, except that the amount in section 6333(a)(4)(A)(ii) of this title shall be 34 percent of the average per pupil expenditure in the United States; multiplied by

(ii) such State's effort factor described in paragraph (2); multiplied by

(iii) 1.30 minus such State's equity factor described in paragraph (3).

(B) State minimum

Notwithstanding any other provision of this section or section 6332 of this title, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of –

(i) 0.35 percent of total appropriations; or

(ii) the average of –

(I) 0.35 percent of the total amount available to carry out this section; and

(II) 150 percent of the national average grant under this section per child described in section 6333(c) of this title, without application of a weighting factor, multiplied by the State's total number of children described in section 6333(c) of this title, without application of a weighting factor.

(2) Effort factor

(A) In general

Except as provided in subparagraph (B), the effort factor for a State shall be determined in accordance with the succeeding sentence, except that such factor shall not be less than 0.95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the 3-year average per-pupil expenditure in the State multiplied by the 3-year average per capita income in the United States and the denominator of which is the product of the 3-year average per capita income in such State multiplied by the 3-year average per-pupil expenditure in the United States.

(B) Commonwealth of Puerto Rico

The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under

subparagraph (A) for any State.

(3) Equity factor

(A) Determination

(i) In general

Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

(ii) Computation

(I) In general

For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), and (IV).

(II) Variation

In computing coefficients of variation, the Secretary shall weigh the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils served by the local educational agency.

(III) Number of pupils

In determining the number of pupils under this paragraph served by each local educational agency and in each State, the Secretary shall multiply the number of children counted under section 6333(c) of this title by a factor of 1.4.

(IV) Enrollment requirement

In computing coefficients of variation, the Secretary

shall include only those local educational agencies with an enrollment of more than 200 students.

(B) Special rule

The equity factor for a State that meets the disparity standard described in section 222.162 of title 34, Code of Federal Regulations (as such section was in effect on the day preceding January 8, 2002) or a State with only one local educational agency shall be not greater than 0.10.

(c) Use of funds; eligibility of local educational agencies

All funds awarded to each State under this section shall be allocated to local educational agencies under the following provisions. Within local educational agencies, funds allocated under this section shall be distributed to schools on a basis consistent with section 6313 of this title, and may only be used to carry out activities under this part. A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if –

(A) the number of children in the local educational agency counted under section 6333(c) of this title, before application of the weighted child count described in paragraph (3), is at least 10; and

(B) if the number of children counted for grants under section 6333(c) of this title, before application of the weighted child count described in paragraph (3), is at least 5 percent of the total number of children aged 5 to 17 years, inclusive, in the school district of the local educational agency.

For any fiscal year for which the Secretary allocates funds under this section on the basis of counties, funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(d) Allocation of funds to eligible local educational agencies

Funds received by States under this section shall be allocated within States to eligible local educational agencies on the basis of weighted child counts calculated in accordance with paragraph (1), (2), or (3), as appropriate for each State.

(1) States with an equity factor less than .10

In States with an equity factor less than .10, the weighted child counts referred to in subsection (d) of this section shall be calculated as follows:

is made.

(2) Reduction of funds

The Secretary shall reduce the amount of funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers
