Stat. 2603, provided that:

"(a) Authority. – The Secretary of Defense is authorized to conduct major defense acquisition programs as spiral development programs.

"(b) Limitation on Spiral Development Programs. – A research and development program for a major defense acquisition program of a military department or Defense Agency may not be conducted as a spiral development program unless the Secretary of Defense approves the spiral development plan for that research and development program in accordance with subsection (c). The Secretary of Defense may delegate authority to approve the plan to the Under Secretary of Defense for Acquisition, Technology, and Logistics, or to the senior acquisition executive of the military department or Defense Agency concerned, but such authority may not be further delegated.

"(c) Spiral Development Plans. – A spiral development plan for a research and development program for a major defense acquisition program shall, at a minimum, include the following matters:

"(1) A rationale for dividing the research and development program into separate spirals, together with a preliminary identification of the spirals to be included.

"(2) A program strategy, including overall cost, schedule, and performance goals for the total research and development program.

"(3) Specific cost, schedule, and performance parameters, including measurable exit criteria, for the first spiral to be conducted.

"(4) A testing plan to ensure that performance goals, parameters, and exit criteria are met.

"(5) An appropriate limitation on the number of prototype units that may be produced under the research and development program.

The guidance shall include appropriate processes for ensuring the independent validation of exit criteria being met, the operational assessment of fieldable prototypes, and the management of spiral development programs.

"(e) Reporting Requirement. – The Secretary shall submit to Congress by September 30 of each of 2003 through 2008 a status report on each research and development program that is a spiral development program. The report shall contain information on unit costs that is similar to the information on unit costs under major defense acquisition programs that is required to be provided to Congress under chapter 144 of title 10, United States Code, except that the information on unit costs shall address projected prototype costs instead of production costs.

"(f) Applicability of Existing Law. – Nothing in this section

(4)(A) The most efficient production rate, the most efficient acquisition rate, and the minimum sustaining rate, consistent with the program priority established for such weapon system by the Secretary concerned.

(B) In this paragraph:

(i) The term "most efficient production rate" means the maximum rate for each budget year at which the weapon system can be produced with existing or planned plant capacity and tooling, with one shift a day running for eight hours a day and five days a week.

(ii) The term "minimum sustaining rate" means the production rate for each budget year that is necessary to keep production lines open while maintaining a base of responsive vendors and suppliers.

(c) In the case of any weapon system for which procurement funds have not been previously requested and for which funds are first requested by the President in any fiscal year after the Budget for that fiscal year has been submitted to Congress, the same documentation requirements shall be applicable to that system in the same manner and to the same extent as if funds had been requested for that system in that budget.

BALLISTIC MISSILE DEFENSE PROGRAM

Subtitle C of title II of div. A of Pub. L. 104–106, as amended by Pub. L. 105–85, div. A, title II, Sec. 236, Nov. 18, 1997, 111 Stat. 1665; Pub. L. 106–65, div. A, title X, Sec. 1067(6), Oct. 5, 1999, 113 Stat. 774; Pub. L. 107–314, div. A, title X, Sec. 1041(c), Dec. 2, 2002, 116 Stat. 2646, provided that:

"SEC. 231. SHORT TITLE.

"This subtitle may be cited as the 'Ballistic Missile Defense Act of 1995'.

"SEC. 232. FINDINGS.

"Congress makes the following findings:

"(1) The emerging threat that is posed to the national security interests of the United States by the proliferation of ballistic missiles is significant and growing, both in terms of numbers of missiles and in terms of the technical capabilities of those missiles.

"(2) The deployment of ballistic missile defenses is a necessary, but not sufficient, element of a broader strategy to discourage both the proliferation of weapons of mass destruction and the proliferation of the means of their delivery and to defend against the consequences of such proliferation.

"(3) The deployment of effective Theater Missile Defense systems can deter potential adversaries of the United States from escalating a conflict by threatening or attacking United States forces or the forces or territory of coalition partners or allies of the United States with ballistic missiles armed with weapons of mass destruction to offset the operational and technical advantages of the United States and its coalition partners and allies.

"(4) United States intelligence officials have provided intelligence estimates to congressional committees that (A) the trend in missile proliferation is toward longer range and more sophisticated ballistic missiles, (B) North Korea may deploy an intercontinental ballistic missile capable of reaching Alaska or beyond within five years, and (C) although a new, indigenously

developed ballistic missile threat to the continental United States is not foreseen within the next ten years, determined countries can acquire intercontinental ballistic missiles in the near future and with little warning by means other than indigenous development.

"(5) The development and deployment by the United States and its allies of effective defenses against ballistic missiles of all ranges will reduce the incentives for countries to acquire such missiles or to augment existing missile capabilities.

"(6) The concept of mutual assured destruction (based upon an offense-only form of deterrence), which is the major philosophical rationale underlying the ABM Treaty, is now questionable as a basis for stability in a multipolar world in which the United States and the states of the former Soviet Union are seeking to normalize relations and eliminate Cold War attitudes and arrangements.

"(7) The development and deployment of a National Missile Defense system against the threat of limited ballistic missile attacks –

"(A) would strengthen deterrence at the levels of forces agreed to by the United States and Russia under the Strategic Arms Reduction Talks Treaty (START-I); and

"(B) would further strengthen deterrence if reductions below the levels permitted under START-I should be agreed to and implemented in the future.

"(8) The distinction made during the Cold War, based upon the

technology of the time, between strategic ballistic missiles and nonstrategic ballistic missiles, which resulted in the distinction made in the ABM Treaty between strategic defense and nonstrategic defense, has become obsolete because of technological advancement (including the development by North Korea of long-range Taepo-Dong I and Taepo-Dong II missiles) and, therefore, that distinction in the ABM Treaty should be reviewed.

"SEC. 233. BALLISTIC MISSILE DEFENSE POLICY.

"It is the policy of the United States –

"(1) to deploy affordable and operationally effective theater missile defenses to protect forward-deployed and expeditionary elements of the Armed Forces of the United States and to complement the missile defense capabilities of forces of coalition partners and of allies of the United States; and

"(2) to seek a cooperative, negotiated transition to a regime that does not feature an offense-only form of deterrence as the basis for strategic stability.

"SEC. 234. THEATER MISSILE DEFENSE ARCHITECTURE.

"(a) Establishment of Core Program. – To implement the policy established in paragraph (1) of section 233, the Secretary of Defense shall restructure the core theater missile defense program to consist of the following systems:

"(1) The Patriot PAC-3 system.

"(2) The Navy Area Defense system.

"(3) The Theater High-Altitude Area Defense (THAAD) system.

"(4) The Navy Theater Wide system.

"(b) Use of Streamlined Acquisition Procedures. – The Secretary of Defense shall prescribe and use streamlined acquisition policies and procedures to reduce the cost and increase the efficiency of developing and deploying the theater missile defense systems specified in subsection (a).

"(c) Interoperability and Support of Core Systems. – To maximize effectiveness and flexibility of the systems comprising the core theater missile defense program, the Secretary of Defense shall ensure that those systems are integrated and complementary and are fully capable of exploiting external sensor and battle management support from systems such as –

"(A) the Cooperative Engagement Capability (CEC) system of the Navy;

"(B) airborne sensors; and

"(C) space-based sensors (including, in particular, the Space and Missile Tracking System).

"(d) Follow-on Systems. – (1) The Secretary of Defense shall prepare an affordable development plan for theater missile defense systems to be developed as follow-on systems to the core systems specified in subsection (a). The Secretary shall make the selection of a system for inclusion in the plan based on the capability of the system to satisfy military requirements not met by the systems in the core program and on the capability of the system to use prior investments in technologies, infrastructure, and battle-management capabilities that are incorporated in, or associated with, the systems in the core program.

"(2) The Secretary may not proceed with the development of a follow-on theater missile defense system beyond the Demonstration/Validation stage of development unless the Secretary designates that system as a part of the core program under this section and submits to the congressional defense committees (Committees on Armed Services and on Appropriations of the Senate and House of Representatives) notice of that designation. The Secretary shall include with any such notification a report describing –

"(A) the requirements for the system and the specific threats that such system is designed to counter;

"(B) how the system will relate to, support, and build upon existing core systems;

"(C) the planned acquisition strategy for the system; and

"(D) a preliminary estimate of total program cost for that system and the effect of development and acquisition of such system on Department of Defense budget projections.

"(e) Program Accountability Report. – (1) As part of the annual report of the Ballistic Missile Defense Organization (now Missile Defense Agency) required by section 224 of Public Law 101–189 (10 U.S.C. 2431 note), the Secretary of Defense shall describe the technical milestones, the schedule, and the cost of each phase of development and acquisition (together with total estimated program costs) for each core and follow-on theater missile defense program.

"(2) As part of such report, the Secretary shall describe, with respect to each program covered in the report, any variance in the

technical milestones, program schedule milestones, and costs for the program compared with the information relating to that program in the report submitted in the previous year and in the report submitted in the first year in which that program was covered.

"SEC. 235. PROHIBITION ON USE OF FUNDS TO IMPLEMENT AN INTERNATIONAL AGREEMENT CONCERNING THEATER MISSILE DEFENSE SYSTEMS.

"(a) Findings. – (1) Congress hereby reaffirms –

"(A) the finding in (former) section 234(a)(7) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103–160; 107 Stat. 1595; 10 U.S.C. 2431 note) that the ABM Treaty was not intended to, and does not, apply to or limit research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles, regardless of the capabilities of such missiles, unless those systems, system upgrades, or system components are tested against or have demonstrated capabilities to counter modern strategic ballistic missiles; and

"(B) the statement in section 232 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337; 108 Stat. 2700) that the United States shall not be bound by any international agreement entered into by the President that would substantively modify the ABM Treaty unless the agreement is entered into pursuant to the treaty making power of the President under the Constitution.

"(2) Congress also finds that the demarcation standard described in subsection (b)(1) for compliance of a missile defense system, system upgrade, or system component with the ABM Treaty is based upon current technology.

"(b) Sense of Congress Concerning Compliance Policy. – It is the sense of Congress that –

"(1) unless a missile defense system, system upgrade, or system component (including one that exploits data from space-based or other external sensors) is flight tested in an ABM-qualifying flight test (as defined in subsection (e)), that system, system upgrade, or system component has not, for purposes of the ABM Treaty, been tested in an ABM mode nor been given capabilities to counter strategic ballistic missiles and, therefore, is not subject to any application, limitation, or obligation under the ABM Treaty; and

"(2) any international agreement that would limit the research, development, testing, or deployment of missile defense systems, system upgrades, or system components that are designed to counter modern theater ballistic missiles in a manner that would be more restrictive than the compliance criteria specified in paragraph (1) should be entered into only pursuant to the treaty making powers of the President under the Constitution.

"(c) Prohibition on Funding. – Funds appropriated or otherwise made available to the Department of Defense for fiscal year 1996 may not be obligated or expended to implement an agreement, or any understanding with respect to interpretation of the ABM Treaty,

between the United States and any of the independent states of the former Soviet Union entered into after January 1, 1995, that –

"(1) would establish a demarcation between theater missile defense systems and anti–ballistic missile systems for purposes of the ABM Treaty; or

"(2) would restrict the performance, operation, or deployment of United States theater missile defense systems.

"(d) Exceptions. – Subsection (c) does not apply –

"(1) to the extent provided by law in an Act enacted after this Act (Pub. L. 104–106, enacted Feb. 10, 1996);

"(2) to expenditures to implement that portion of any such agreement or understanding that implements the policy set forth in subsection (b)(1); or

"(3) to expenditures to implement any such agreement or understanding that is approved as a treaty or by law.

"(e) ABM–Qualifying Flight Test Defined. – For purposes of this section, an ABM–qualifying flight test is a flight test against a ballistic missile which, in that flight test, exceeds (1) a range of 3,500 kilometers, or (2) a velocity of 5 kilometers per second.

"SEC. 236. BALLISTIC MISSILE DEFENSE COOPERATION WITH ALLIES.

"It is in the interest of the United States to develop its own missile defense capabilities in a manner that will permit the United States to complement the missile defense capabilities developed and deployed by its allies and possible coalition partners. Therefore, the Congress urges the President –

"(1) to pursue high–level discussions with allies of the

United States and selected other states on the means and methods by which the parties on a bilateral basis can cooperate in the development, deployment, and operation of ballistic missile defenses;

"(2) to take the initiative within the North Atlantic Treaty Organization to develop consensus in the Alliance for a timely deployment of effective ballistic missile defenses by the Alliance; and

"(3) in the interim, to seek agreement with allies of the United States and selected other states on steps the parties should take, consistent with their national interests, to reduce the risks posed by the threat of limited ballistic missile attacks, such steps to include –

"(A) the sharing of early warning information derived from sensors deployed by the United States and other states;

"(B) the exchange on a reciprocal basis of technical data and technology to support both joint development programs and the sale and purchase of missile defense systems and components; and

"(C) operational level planning to exploit current missile defense capabilities and to help define future requirements.

"SEC. 237. ABM TREATY DEFINED.

"For purposes of this subtitle, the term 'ABM Treaty' means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, and signed at Moscow on May 26, 1972, and includes the

Protocols to that Treaty, signed at Moscow on July 3, 1974.

"SEC. 238. REPEAL OF MISSILE DEFENSE ACT OF 1991.

"(c) Compliance Review for Brilliant Eyes. – The Secretary of Defense shall review the Brilliant Eyes program to determine whether, and under what conditions, the development, testing, and deployment of the Brilliant Eyes missile tracking system in conjunction with a theater ballistic missile defense system, with a limited national missile defense system, and with both such systems, would be in compliance with the ABM Treaty, including the interpretation of that treaty set forth in the enclosure to the July 13, 1993, ACDA letter.

"(d) Compliance Review for Navy Upper Tier System. – (1) The Secretary of Defense shall review the theater ballistic missile program known as the Navy Upper Tier program to determine whether the development, testing, and deployment of the system being developed under that program would be in compliance with the ABM Treaty, including the interpretation of the Treaty set forth in the enclosure to the July 13, 1993, ACDA letter.

"(2) Of the funds made available to the Department of Defense for fiscal year 1995, not more than \$40,000,000 may be obligated

Pub. L. 103–160, div. A, title II, Sec. 234, Nov. 30, 1993, 107 Stat. 1595, contained findings of Congress, required compliance review, and limited funding pending submission of report, prior to

repeal by Pub. L. 104–106, div. A, title II, Sec. 253(6), Feb. 10, 1996, 110 Stat. 235.

THEATER MISSILE DEFENSE MASTER PLAN

"(a) Integration and Compatibility. – In carrying out the Theater Missile Defense Initiative, the Secretary of Defense shall

–

"(1) seek to maximize the use of existing systems and technologies; and

"(2) seek to promote joint use by the military departments of existing and future ballistic missile defense equipment (rather than each military department developing its own systems that would largely overlap in their capabilities).

The Secretaries of the military departments shall seek the maximum integration and compatibility of their ballistic missile defense systems as well as of the respective roles and missions of those systems.

"(b) TMD Master Plan. – The Secretary of Defense shall submit to Congress a report (which shall constitute the TMD master plan) containing a thorough and complete analysis of the future of theater missile defense programs. The report shall include the following:

"(1) A description of the mission and scope of Theater Missile Defense.

"(2) A description of the role of each of the Armed Forces in

Theater Missile Defense.

"(3) A description of how those roles interact and complement each other.

"(4) An evaluation of the cost and relative effectiveness of each interceptor and sensor under development as part of a Theater Missile Defense system by the Ballistic Missile Defense Organization (now Missile Defense Agency).

"(5) A detailed acquisition strategy which includes an analysis and comparison of the projected acquisition and life-cycle costs of each Theater Missile Defense system intended for production (shown separately for research, development, test, and evaluation, for procurement, for operation and maintenance, and for personnel costs for each system).

"(6) Specification of the baseline production rate for each year of the program through completion of procurement.

"(7) An estimate of the unit cost and capabilities of each system.

"(8) A description of plans for theater and tactical missile defense doctrine, training, tactics, and force structure.

"(1) a description of the current and projected testing program for Theater Missile Defense systems and major components; and

"(2) an evaluation of the adequacy of the testing program to simulate conditions similar to those the systems and components

would actually be expected to encounter if and when deployed (such as the ability to track and engage multiple targets with multiple interceptors, to discriminate targets from decoys and other incoming objects, and to be employed in a shoot–look–shoot firing mode).

"(d) Relationship to Arms Control Treaties. – The Secretary shall include in the report under subsection (b) a statement of how production and deployment of any projected Theater Missile Defense program will conform to all relevant arms control agreements. The report shall describe any potential noncompliance with any such agreement, when such noncompliance is expected to occur, and whether provisions need to be renegotiated within that agreement to address future contingencies.

"(e) Submission of Report. – The report required by subsection (b) shall be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101–189 (10 U.S.C. 2431 note).

"(f) Objectives of Plan. – In preparing the master plan, the Secretary shall –

"(1) seek to maximize the use of existing technologies (such as SM–2, AEGIS, Patriot, and THAAD) rather than develop new systems;

"(2) seek to maximize integration and compatibility among the systems, roles, and missions of the military departments; and

"(3) seek to promote cross–service use of existing equipment (such as development of Army equipment for the Marine Corps or

ground utilization of an air or sea system).

"(g) Review and Report on Deployment of Ballistic Missile

Defenses. – (1) The Secretary of Defense shall conduct an intensive and extensive review of opportunities to streamline the weapon systems acquisition process applicable to the development, testing, and deployment of theater ballistic missile defenses with the objective of reducing the cost of deployment and accelerating the schedule for deployment without significantly increasing programmatic risk or concurrency.

"(2) In conducting the review, the Secretary shall obtain recommendations and advice from –

"(A) the Defense Science Board;

"(B) the faculty of the Industrial College of the Armed Forces; and

"(C) federally funded research and development centers supporting the Office of the Secretary of Defense.

"(3) Not later than May 1, 1994, the Secretary shall submit to the congressional defense committees a report on the Secretary's findings resulting from the review under paragraph (1), together with any recommendations of the Secretary for legislation. The Secretary shall submit the report in unclassified form, but may submit a classified version of the report if necessary to clarify any of the information in the findings or recommendations or any related information. The report may be submitted as part of the next annual report of the Secretary submitted to Congress under section 224 of Public Law 101–189 (10 U.S.C. 2431 note)."

"(a) SDI Contracts With Foreign Entities. – Funds appropriated to or for the use of the Department of Defense may not be used for the purpose of entering into or carrying out any contract with a foreign government or a foreign firm if the contract provides for the conduct of research, development, test, or evaluation in connection with the Strategic Defense Initiative program.

"(b) Temporary Suspension of Prohibition Upon Certification of the Secretary of Defense. – The prohibition in subsection (a) shall not apply to a contract in any fiscal year if the Secretary of Defense certifies to Congress in writing at any time during such fiscal year that the research, development, testing, or evaluation to be performed under such contract cannot be competently performed by a United States firm at a price equal to or less than the price at which the research, development, testing, or evaluation would be performed by a foreign firm.

"(c) Exceptions for Certain Contracts. – The prohibition in subsection (a) shall not apply to a contract awarded to a foreign government or foreign firm if –

L. 103–199, title II, Sec. 203(a)(1), Dec. 17, 1993, 107 Stat. 2321, provided that: "Military technology developed with funds appropriated or otherwise made available for the Ballistic Missile Defense Program may not be transferred (or made available for transfer) to Russia or any other independent state of the former Soviet Union by the United States (or with the consent of the United States) unless the President determines, and certifies to the Congress at least 15

days prior to any such transfer, that such transfer is in the national interest of the United States and is to be made for the purpose of maintaining peace."

Section 224 of Pub. L. 100–180 provided that: "No agency of the Federal Government may plan for, fund, or otherwise support the development of command and control systems for strategic defense in the boost or post–boost phase against ballistic missile threats that would permit such strategic defenses to initiate the directing of damaging or lethal fire except by affirmative human decision at an appropriate level of authority."

PROHIBITION ON DEPLOYMENT OF ANTI–BALLISTIC MISSILE SYSTEM UNLESS AUTHORIZED BY LAW

Section 226 of Pub. L. 100–180 prohibited Secretary of Defense from deploying anti–ballistic missile system unless such deployment was specifically authorized by law after Dec. 4, 1987, prior to repeal by Pub. L. 104–106, div. A, title II, Sec. 253(3), Feb. 10, 1996, 110 Stat. 234.

ESTABLISHMENT OF FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTER TO SUPPORT SDI PROGRAM

Section 227 of Pub. L. 100–180 provided that:

"(a) Findings. – The Congress makes the following findings:

"(1) The Department of Defense requires technical support for issues of system integration related to the Strategic Defense Initiative program.

"(2) The Strategic Defense Initiative Organization, after

assessing alternative types of organizations for the provision of such technical support to the Strategic Defense Initiative program (including Government organizations, profit and nonprofit entities (including existing federally funded research and development centers), a new division within an existing federally funded research and development center, a new federally funded research and development center, colleges and universities, and private nonprofit laboratories), determined that a new federally funded research and development center (hereinafter in this section referred to as an 'FFRDC') would be the type of organization most appropriate for the provision of such technical support to the Strategic Defense Initiative program.

"(3) In providing such technical support to the SDI program, the new FFRDC should provide critical evaluation and rigorous and objective analysis of technologies, systems, and architectures that are candidates for use in the SDI program.

"(4) Competitive selection of a contractor to establish and operate such an FFRDC to support the Strategic Defense Initiative program is one way to enhance the prospects for independent and objective evaluation of system integration issues within the Strategic Defense Initiative program.

"(b) Authority To Contract for FFRDC. – The Secretary of Defense, using funds appropriated to the Department of Defense for the Strategic Defense Initiative program, may enter into a contract to provide for the establishment and operation of a federally funded research and development center to provide independent and

objective technical support to the Strategic Defense Initiative program. Such a contract may not be awarded before October 1, 1989.

"(c) Contract Award Requirements. – (1) A contract under subsection (b) shall be awarded using competitive procedures which emphasize cost considerations.

"(2) The Secretary of Defense shall solicit proposals for such contract from existing federally funded research and development centers, from universities, from commercial entities, and from appropriate new organizations and shall make maximum efforts to obtain more than one proposal for such contract.

"(3) The Secretary shall submit the three best contract proposals (as determined by the Secretary), together with a copy of the proposed sponsoring agreement for the new FFRDC, for review by three persons designated by the Defense Science Board from a list of six or more persons submitted by the National Academy of Sciences. The persons performing the review –

"(A) shall evaluate the extent to which each proposal and the proposed sponsoring agreement would foster competent and objective technical advice for the Strategic Defense Initiative Program; and

"(B) shall report their evaluation of each such proposal and of the proposed sponsoring agreement to the Secretary.

"(4) Before awarding a contract under subsection (b), and not sooner than March 30, 1989, the Secretary shall submit to Congress

–

"(A) a copy of the proposed final contract; and

"(B) a copy of the proposed final sponsoring agreement relating to the operation of the new FFRDC.

referred to as the 'Secretary') may assist communities located near MX Missile System sites and communities located near the East Coast Trident Base, and the States in which such communities are located, in meeting the costs of providing increased municipal services and facilities to the residents of such communities, if the Secretary determines that there is an immediate and substantial increase in the need for such services and facilities in such communities as a direct result of work being carried out in connection with the construction, installation, or operation of the MX Missile System or the East Coast Trident Base, as the case may be, and that an unfair and excessive financial burden will be incurred by such communities, or the States in which such communities are located, as a result of such increased need for such services and facilities.

"(b)(1) Whenever possible, the Secretary shall carry out the program of assistance authorized under this section through existing Federal programs. In carrying out such program of assistance, the Secretary may –

"(A) supplement funds made available under existing Federal programs through a direct transfer of funds from the Secretary to the department or agency concerned in such amounts as the Secretary considers necessary;

"(B) provide financial assistance to communities described in subsection (a) to help such communities pay their share of the costs under such programs;

interest payments, in whole or in part, for State or municipal indebtedness, for improved public facilities related to the MX Missile System site or the East Coast Trident Base, as the case may be; and

"(D) make direct grants to or on behalf of communities described in subsection (a) in cases in which Federal programs (or funds for such programs) do not exist or are not sufficient to meet the costs of providing increased municipal services and facilities to the residents of such communities.

"(2) The head of each department and agency shall cooperate fully with the Secretary in carrying out the provisions of this section on a priority basis.

"(3) Notwithstanding any other provision of law, the Secretary, in cooperation with the heads of other departments and agencies of the Federal Government, may provide assistance under this section in anticipation of the work to be carried out in connection with the MX Missile System sites or the East Coast Trident Base, as the case may be.

"(c) In determining the amount of financial assistance to be made available under this section to any local community for any community service or facility, the Secretary shall consult with the head of the department or agency concerned with the type of service or facility for which financial assistance is being made available and shall take into consideration –

"(1) the time lag between the initial impact of increased population in any such community and any increase in the local

tax base which will result from such increased population;

"(2) the possible temporary nature of the increased population and the long-range cost impact on the permanent residents of any such community;

"(3) the initial capitalization required for municipal sewer and water systems;

"(4) the initial operating cost for upgrading municipal services; and

"(5) such other pertinent factors as the Secretary considers appropriate.

"(d) Funds appropriated to the Department of Defense for carrying out the MX Missile System deployment program and the East Coast Trident Base may, to the extent specifically authorized in Military Construction Authorization Acts, be used by the Secretary to provide assistance under this section."

MX MISSILE AND BASING MODE

Pub. L. 96-342, title II, Sec. 202, Sept. 8, 1980, 94 Stat. 1079, provided that:

"(a) The Congress finds that a survivable land-based intercontinental ballistic missile (ICBM) system is vital to the security of the United States and to a stable strategic balance between the United States and the Soviet Union and that timely deployment of a new basing mode is essential to the survivability of this Nation's land-based intercontinental ballistic missiles.

It is, therefore, the purpose of this section to commit the Congress to the development and deployment of the MX missile

system, consisting of 200 missiles and 4,600 hardened shelters, and to insure that deployment of the entire MX system is carried out as soon as practicable.

"(b) The Secretary of Defense shall proceed immediately with the full-scale engineering development of the MX missile and a Multiple Protective Structure (MPS) basing mode and shall continue such development in a manner that will achieve an Initial Operational Capability of such missile and basing mode not later than December 31, 1986.

"(c) Notwithstanding any other provision of law, the initial phase of construction shall be limited to 2,300 protective shelters for the MX missile in the initial deployment area.

"(d) In accordance with the finding of the Congress expressed in subsection (a), a full system of at least 4,600 protective shelters may be deployed in the initial deployment area if, after completion of a study to be conducted by the Secretary of Defense of an alternate site for a portion of the system, it is determined by the Congress that adverse cost, military considerations, or other reasons preclude split basing."

DEVELOPMENT OF MX MISSILE SYSTEM

Pub. L. 96-29, title II, Sec. 202, June 27, 1979, 93 Stat. 79, provided that:

"(a) It is the sense of the Congress that maintaining a survivable land-based intercontinental ballistic missile system is vital to the security of the United States and that development of a new basing mode for land-based intercontinental ballistic

missiles is necessary to assure the survivability of the land-based system. To this end, the development of the MX missile, together with a new basing mode for such missile, should proceed so as to achieve Initial Operational Capability (IOC) for both such missile and such basing mode at the earliest practicable date.

"(b) In addition, it is the sense of the Congress that the basing mode for the MX missile should be restricted to location on the least productive land available that is suitable for such purpose.

"(c) In accordance with the sense of Congress expressed in subsection (a), the Secretary of Defense shall proceed immediately with full scale engineering development of the missile basing mode known as the Multiple Protective Structure (MPS) system concurrently with full scale engineering development of the MX missile, unless and until the Secretary of Defense certifies to the Congress that an alternative basing mode is militarily or technologically superior to, and is more cost effective than, the MPS system or the President informs the Congress that in his view the MPS system is not consistent with United States national security interests.

"(d) Nothing in this section shall be construed to prohibit or restrict the study of alternative basing modes for land-based intercontinental ballistic missiles."

Section 811 of Pub. L. 94-106, as amended by Pub. L. 96-107, title VIII, Sec. 809, Nov. 9, 1979, 93 Stat. 815; Pub. L. 97-86,

"(d) Any funds appropriated to the Department of Defense for the fiscal year beginning July 1, 1974, for carrying out the TRIDENT Weapon System shall be utilized by the Secretary of Defense in carrying out the provisions of this section to the extent that funds are unavailable under other Federal programs. Funds appropriated to the Department of Defense for any fiscal year

beginning after June 30, 1975, for carrying out the TRIDENT Weapon System may, to the extent specifically authorized in an annual Military Construction Authorization Act, be utilized by the Secretary of Defense in carrying out the provision of this section to the extent that funds are unavailable under other Federal programs.

"(e) The Secretary shall transmit to the Committees on Armed Services of the Senate and the House of Representatives semiannual reports indicating the total amount expended in the case of each local community which was provided assistance under the authority of this section during the preceding six-month period, the specific projects for which assistance was provided during such period, and the total amount provided for each such project during such period."

Whenever the Secretary of Defense proposes to make changes in the content of a Selected Acquisition Report, the Secretary shall submit a notice of the proposed changes to such committees. The changes shall be
