In the afternoons, I like to play basketball with my friends, and after I go to make my home works, because the study is very important for me. I have a dog, its name is Lucas, and is my best friend.

I live with my mother, my father and my little sister, and I love they so much. She is 5 year old, and the next month we go together for the first time to the zoo-park. There is many animals like the panther, the tiger, the big bear, the funny monkeys, and birds like the eagle, the condor and others more that will be nice to meet.

My father say me If you are a god boy, in your birthday I give you a Play station can you believe it?, is a nice gift, so I will be a god boy for win this prize.

Yesterday star the summer, and I can go to the beach with my uncle and my cousins, for play everyday together in the sea. I know that this is a god plan, also is funny and is economic.

Past progressive

When the girl was arriving to her house, her mother did cooking the dinner. The girl walked in silent to her room, but her mother already heard the door. Calling sweetly to her daughter, the mother say : why do you arrive to this hour at the house?

The girl, rotating on her steps, and looking to the eyes of her mother, she was telling to the woman that was cooking, reasons about 3 minutes. But the woman smiling said:; I know that you were with Richard, why do you're lying me?

The girl downing her heard and said: I am sorry, mommy, never do it again

don't arrive to this hour again, do you know what time is?

I do, but don't be angry with me, please

ok. The mother don't know that her daughter didn't forget her birthday, and the reason for the later of her arrive, was the gift that she had leave in the receiver, with the help of dad.

After, in the dinner, the father, smiling and look with malice, say to his daughter and wife that he had a god notice: their gone to travel to the Bahamas for the birthday of her wife.

The woman was very happy, but was more happy, when his daughter give she a beautiful card.

Modal should

My life is so hard. Is full of obligations. My mother arrive to my house, and nor even greet me, and already start to say me things for to do. you should clean your room thing that I hate, you should to wash you dirty clothes, you should give food to your dog

Is so hard. Why never say you should get out to the park? or you should eat a ice cream? Not, she only order bored things for to do, nothing more.

For example, yesterday, I was walking for the park, and my mother get out and shoot me Hey, you!!! Come

on and I think that you should make your homework!!!! Really, I wasn't angry, for first time, I wasn't angry because my mother shout me with all my friend see and hear. But my mother shout too and take you drawers away from the bathroom I can believe that my mother do it me this. Why she can say this with all my friend here? And the more sad, is that the all that I can do, is be angry and make bad face.

For that, when my mother leave go to the park with my friend, I prefer put in order all my things, before that my mother shout me you should
